Summary

Motivated Information Technology student and aspiring Full Stack Developer with hands-on experience building web applications and developing RESTful APIs. Proficient in React.js,React Native,TypeScript, Node.js, Express.js, FastAPI, JavaScript, Python, and database integration. Experienced in developing backend services, integrating APIs with frontend applications, and working with relational databases. Seeking an entry-level Full Stack Developer role to apply technical skills in real-world application development.

Education

B.Tech. – Information Technology Expected 2027
Sri Shanmugha College of Engineering and Technology, Anna University *Salem, Tamil Nadu*
- CGPA: 8.0/10

Technical Skills

Languages:	JavaScript, Java, C, Python, SQL
Frontend:	HTML5, CSS3, JavaScript, TypeScript, React.js, React Native, Tailwind CSS
Backend:	Node.js, Express.js, FastAPI, JWT,Bcrypt
Databases:	MySQL, PostgreSQL
DevOps & Tools:	Git, GitHub, Docker, Linux (Ubuntu, Zorin), CI/CD, Postman, Swagger

Experience

Full Stack Developer Intern 11/2025 – 03/2026
Aakam360 pvt. ltd. *Salem, Tamil Nadu*
- Developed responsive web applications using HTML5, CSS3, JavaScript, and React.js.
- Built RESTful APIs and backend services using Node.js and Express.js.
- Integrated frontend applications with backend APIs and relational databases.
- Implemented CRUD operations using MySQL.
- Performed API testing, debugging, and troubleshooting using Postman.
- Created technical documentation for application features and API endpoints.
- Used Git and GitHub for version control and code collaboration.

Full Stack Development Trainee 03/2026 – 05/2026
Younder Bots pvt. ltd. *Salem, Tamil Nadu*
- Developed full-stack applications using React.js for frontend and FastAPI for backend services.
- Designed and developed RESTful API endpoints with validation logic.
- Built frontend forms and integrated them with backend APIs using JavaScript.
- Worked with PostgreSQL and MySQL databases for application data management.
- Tested APIs, debugged issues, and delivered client-based features.

Projects

Cumulative Student Record Management System *React ,Express,Sequelize,MySQL*
- Developed RESTful APIs to manage cumulative academic and clinical records of nursing students.
- Implemented database integration for storing, retrieving, and maintaining student performance and clinical information.
- Built backend functionality to streamline nursing student record management and cumulative data operations.

Stock Market Tracker - Stock Price Predictor App *React Native, Alpha Vantage API*
- Developed a React Native application to fetch and display stock market data using the Alpha Vantage API.
- Implemented asynchronous API integration using Fetch and async/await to retrieve stock prices and historical data.
- Built interactive stock price visualization using line charts and implemented percentage-change based price prediction.

SmartOps 360 - Supply Chain Managment *React,FastApi,SQLAlchemy,MySQL*
- Developed full-stack modules using React.js for the frontend and FastAPI for backend services.
- Implemented RESTful APIs for order, warehouse, inventory, driver, and tracking modules.
- Implemented inventory management features including add, edit, delete, and low-stock handling.
- Integrated order tracking and driver assignment functionality with backend services.
