PROFESSIONAL SUMMARY

Computer Science graduate (2027) and Software Engineer Intern with a strong foundation in programming and Object-Oriented Programming. Experienced in developing and testing software applications through internships and academic projects. A quick learner with good problem-solving and teamwork skills, eager to contribute to software engineering teams and grow as a developer.

TECHNICAL SKILLS

- **Languages:** Java, Python
- **Frontend:** HTML, CSS
- **Backend:** FastAPI
- **Database Technologies:** MySQL, SQLite, Redis, Indexing
- **Software Fundamentals:** Object-Oriented Programming (OOP), Problem Solving
- **API & Testing:** REST APIs, Swagger
- **Tools:** Git, GitHub, VS Code

PROJECTS

Project 1: Expense Tracker – Personal Finance Web Application | *HTML, CSS, Python, FastAPI, MySQL*

- Developed a secure web application for tracking and managing personal income and expenses.
- Built REST APIs for user authentication and expense management, and created a responsive dashboard for viewing financial data.
- Designed an optimized database schema and tested the application across multiple browsers to ensure reliable performance.

Project 2: Real-Time Collaborative Task Management System | *HTML, CSS, Python, FastAPI, Redis, REST APIs, MySQL*

- Developed a task management system that allows users to create, assign, update, and track tasks in real time.
- Implemented secure user authentication and managed user roles for controlled access.
- Improved application performance using Redis caching and tested REST APIs with Swagger to ensure reliable functionality.

EDUCATION

B.E. Computer Science & Engineering **2023 – 2027**
Kongunadu College of Engineering and Technology, Trichy | CGPA: 8.1 / 10.0

Higher Secondary Certificate (HSC) **2022 – 2023**
Sri Ragavendhra Matric Higher Secondary School, Salem | Score: 92%

INTERNSHIP

Software Engineer Intern — DrugVigil **July 2026 – Present**

- Worked on a pharmacovigilance web application using Python, FastAPI, and REST APIs, contributing to backend development and application functionality.
- Developed and tested backend APIs for managing and retrieving application data.
- Used Git and GitHub for version control, managing code changes, maintaining project branches, and collaborating with the development team.

ACHIEVEMENTS

- **Hackathon Recognition:** Designed an AI Mock Interview System that was selected among the top projects at the College Hackathon 2025, recognizing its features and application development.
- **Paper Presentation Award:** Won a prize for presenting a paper on Artificial Intelligence at ARIVOLI-2K25, Knowledge Institute of Technology.

CERTIFICATIONS

- **AWS AI Practitioner Challenge** — Udacity (Part of Accenture), June 2026
- **Prompt Engineering** — Infosys Springboard, August 2025
