- **Holy Cross Matric Higher Secondary School** 2019
  Secondary School Leaving Certificate (SSLC)
  68%

Skills

- Web development
- Java
- API Integration
- Workflow Automation (n8n)
- SQL
- Python

Area Of Interest

- Web Development
- N8n Tool
- SQL
- OOPS

Projects

- **Game-Based Therapy for Autism Children**
  Technologies: HTML, CSS, JavaScript, Machine Learning
  Developed a web-based application using HTML, CSS, JavaScript, and Machine Learning to improve cognitive skills and social interaction in children with autism. Implemented progress tracking and report generation features. Designed interactive activities and games to enhance communication, memory, and problem-solving skills in an engaging environment.
- **Turf Booking Management System**
  Technologies: n8n, APIs, Webhooks, HTML, CSS, JavaScript
  Developed a turf booking application with automated backend workflows using n8n. Integrated APIs and webhooks for real-time booking management, confirmations, and user notifications. Improved the overall user experience by streamlining the booking process and reducing manual intervention through workflow automation
