SUMMARY

Computer Science Engineering student with hands-on knowledge of Java, JavaScript, React.js, SQL, and backend development. Interested in software development and experienced in building full-stack web applications using modern web technologies.

EDUCATION

Bachelor of Engineering in CSE(Artificial Intelligence and Machine Learning)
Velalar College of Engineering and Technology — Erode — 2023-2027
CGPA: 7.8/10

H.S.C
Bharathi Matric Higher Secondary School — Erode — 2020-2022
Percentage – 82

SKILLS

- Language: Python, JavaScript, Java
- DSA & Problem solving: Arrays, Strings, Hashing, Two Pointers, Sliding Window, Prefix Sum, Binary Search, Stack, Queue, Linked List, Trees, Heap, Graphs, Recursion, Backtracking, Dynamic Programming
- Frontend: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS
- Backend: Node.js
- Databases: MongoDB, SQL
- Tools and Technologies: AWS, Git, GitHub, VS Code, Power BI

PROJECT

AI-Driven Web Development, Component Compilation & API Testing Platform

- Developed an integrated web development environment for HTML/CSS analysis, React component compilation, and REST API testing.
- Implemented AI-driven responsive layout analysis to detect UI issues, identify potential CSS causes, provide explanations, and recommend fixes across multiple viewport sizes.
- Built a React Component Playground and API testing module for real-time component execution, API request/response validation, and interactive debugging.
- **Github :** https://github.com/SanjayRajDeveloper/DevForge_AI

Ecommerce Web Application

- Developed a responsive full-stack e-commerce application with authentication, product listing, search/filtering, cart, and order management
- Implemented REST APIs, JWT authentication, authorization, and admin functionality for managing products and orders with payment processing, database persistence, and error handling
- **Github** : https://github.com/SanjayRajDeveloper/Ecommerce_proj/

Real-Time chat Application

- Developed a full-stack AI chatbot with real-time responses, persistent chat history, and multiple conversation sessions.
- Implemented streaming responses, Markdown rendering, and voice-to-text functionality with state management, authentication, light/dark themes, and API error handling.
- **Github** : https://github.com/SanjayRajDeveloper/chatbot_proj/

INTERNSHIP

Sparkout Tech Solutions, Coimbatore-(10 days)

- Developed responsive Web pages using the HTML, CSS, JavaScript, Bootstrap
- Implemented responsive layouts and reusable UI components
-

San Tech, Chennai – (2026-Present)

- Developing an Ecommerce Web Application, using TypeScript, React.js
- Developing reusable React components and responsive user interfaces

CERTIFICATION

- Programming in Java-Infosys
- Data Structures and Algorithms-Finest coders
- Python 3.4.3-Spoken tutorial
- Power BI-Value added course

ACHIEVEMENTS

- Secured 2nd place – Inter college Quiz Competition
- Secured 1st place – Inter college Chess tournament
