OBJECTIVE

To work in an organization which provides me with ample opportunities to enhance my skills and knowledge along with contributing to the growth of the organization.

EDUCATION

B.E - Computer Science and Engineering 2022 - 2026
KSR College of Engineering | CGPA: 7.2

Higher Secondary 2020 - 2022
Holy Angel's Matric Hr.Sec.School | Percentage: 75

High School 2019 - 2020
Holy Angel's Matric Hr.Sec.School | Percentage: 71

SKILL

- UI/UX
- Web Development
- Knowledge on Python Programming
- Knowledge on Azure(VM creation, user creation,Role assignment, Port, autoshutdown)
- SQL Programming and Excel

PROJECTS

Smart Herb-(AI) Python

Developed an AI-powered mobile application using Python and Kivy, integrating the MobileNetV2 model achieving 95% herb recognition accuracy. Implemented image-based search and symptom-based suggestions supporting over 200 herbs from the AYUSH database. Included user authentication and search history tracking for up to 1,000 users. The app's interactive interface reduced herb lookup time by 70%, enabling users to access natural remedies efficiently.

Real-Time Sign Language to Speech Translator

Developed a real-time sign language to speech translation system (FP) using Convolutional Neural Networks (CNN) for gesture recognition. Trained the model on sign language datasets using Google Colab, and built a live camera interface to enable real-time translation of hand gestures into speech for the hearing-impaired.

INTERNSHIP

Frontend Intern STACK QUEUE EDUCATION, Salem July-2024

- Learned and applied HTML to structure web pages with proper semantic elements.
- Gained hands-on experience in CSS for styling, layout design, and responsive web development.
- Developed basic understanding of JavaScript, including DOM manipulation and simple interactivity.
- Designed and developed a personal portfolio using HTML, CSS, and basic JavaScript.

CERTIFICATIONS

- Fundamentals of Responsible Generative AI
- NPTEL Certification on IOT and IOT 4.0
