Executive Summary

Computer Science Engineering student with a strong interest in Artificial Intelligence and Machine Learning. Skilled in Python, data analysis, machine learning fundamentals, and problem-solving, with hands-on experience in academic projects. Passionate about building intelligent, data-driven solutions and eager to grow as an AI Engineer.

Tools and Technologies

Languages	: Python ,SQL ,JavaScript
AI & NLP	: NLP, LLMs, Prompt Engineering,Generative AI
Data Science	:NumPy, Pandas,Machine Learning,Scikit-learn,Regression,Classification
Database	: MySQL
Tools	: Visual Studio Code, Postman for API Testing ,Figma

Education

Kongunadu College of Engineering and Technology, B.E CSE — 2023-2027

CGPA : 8.165

Mahatma Montessori School, 12th — May 2023

Cum. Per.:84.4%

Chellappan Vidya Mandir International School, 10th — March 2021

Cum. Per.:82.8%

Projects

HealthChain – Blockchain-Based Secure Healthcare Management System

Developed a blockchain-based healthcare management system with encrypted medical records, roleA-based access control, and blockchain verification to ensure data security and integrity.

Volunteer Management System – Full-Stack Web Application

Developed a full-stack Volunteer Management System to manage volunteer registration, program enrollment, attendance tracking, and role-based access through a centralized web application.

Smart Expense Tracker – Personal Finance Application

Developed a Smart Expense Tracker web application with categorized expense tracking, secure data storage, and OCR-based receipt analysis to manage daily expenses and budgets.

Potential Projects

- **National Level – SIH 2025 :** Crowd-Sourced Civic Issue Reporting and Resolution System
- **MSME Idea Hackathon 5.0:** Sustainable Biodegradable Paper from Corn Stalk Waste

Certifications

- **Paper Presentation (3rd Place):** Knowledge Institute of Technology, Salem. Feb 2025
- **Data Science Internship** (Astro Web Solution)**:** Gained practical exposure to data analysis and basic machine learning using Python. June 2025
- **UI/UX Design Internship** (Ayantrix Solutions)**:** Hands-on training in UI/UX design, wireframing, and basic prototyping using Figma. Dec 2025
- **Build Python Web Applications Using Django & Flask** (VAC)**:** Completed a value added course on Python web development using Django and Flask. Dec 2024
- **Principles of Generative AI (Infosys Springboard)**: Completed a foundational course covering key concepts and applications of generative AI. May 2025
