Profile

Entry-level Data Analyst with **6 months of hands-on internship experience** in data analysis, SQL querying, data cleaning, transformation, visualization, and dashboard development. Proficient in **SQL, Python, Excel, Power BI, and Tableau**, with experience using **Pandas, NumPy, Power Query, and DAX** to prepare datasets, develop KPIs, analyze trends, and deliver interactive dashboards.

Technical Skills

Programming: Python, OOP, Pandas, NumPy

Databases: SQL, MySQL, Joins, Subqueries, CTEs, Window Functions, Aggregate Functions, GROUP BY, CASE

Microsoft Excel: Pivot Tables, VLOOKUP, XLOOKUP, Data Filters, Conditional Formatting

Business Intelligence: Power BI, Tableau, Power Query, DAX

Data Analytics: Data Cleaning, Data Preparation, Data Transformation, Data Modelling, KPI Analysis, Data Visualization, Analytical Reporting

Work Experience

Data Analyst Intern — **Mar 2025 – Aug 2025**
Besant Technologies — *6 Months*

- Analyzed structured datasets using **5 core analytics tools**: SQL, Python, Excel, Power BI, and Tableau for analytical reporting.
- Developed SQL queries using **7+ techniques**: Joins, Subqueries, Aggregate Functions, Window Functions, GROUP BY, CASE, and CTEs.
- Prepared and explored datasets using Python, Pandas, and NumPy for data cleaning, preprocessing, transformation, and exploratory analysis.
- Transformed and modelled data using Power Query and created DAX calculations to develop KPIs and support Power BI analysis.
- Built interactive Power BI dashboards with KPIs, filters, and visualizations to analyze trends, patterns, and key insights.

Projects

Student Performance Data Analysis — **Power BI, Power Query, DAX, Excel**

- Developed an interactive Power BI dashboard to analyze **5 academic dimensions**: student marks, pass/fail rates, subject-wise performance, semester trends, and department-level results.
- Processed and modelled data using Power Query and DAX to create KPIs and evaluate academic performance trends.
- Presented analytical findings through interactive visualizations, filters, and KPI-driven reporting.

Healthcare Financial Data Analysis — **Power BI, Power Query, DAX, Excel**

- Analyzed healthcare financial data across **4 key areas**: medication costs, treatment expenses, insurance coverage, and out-of-pocket payments.
- Transformed and modelled datasets using Power Query and DAX to generate KPIs and support healthcare cost analysis.
- Identified spending patterns and summarized financial insights through interactive Power BI visualizations and analytical reporting.

Education

B.Tech in Biotechnology — **CGPA: 8.03**
Rathinam Technical Campus — 2020 – 2024

HSC — **60%**
SPM Higher Secondary School — 2019 – 2020

SSLC — **84%**
GOVT. Higher Secondary School — 2017 – 2018
