EXPERIENCE

Aelon Tech Soft

Web Developer Intern

- Developed responsive web pages using **HTML and CSS**, focusing on usability and clean layouts.
- Built reusable interface components and applied **responsive design principles** for desktop and mobile screens.
- Assisted in UI testing and debugging by identifying **layout, responsiveness and usability issues** and implementing fixes.

PROJECTS

Rively

UI/UX Design Project

- Conducted competitor analysis to identify gaps in competitor tracking and market intelligence platforms.
- Designed wireframes and interactive dashboards in **Figma** for monitoring competitor activities and trends.
- Applied information architecture and data visualization principles to support strategic decision-making.

Delivery Boy Application

UI/UX Design Project

- Designed user flows for order pickup, navigation, delivery tracking and status management.
- Created wireframes and high-fidelity prototypes in **Figma** to optimize delivery workflows.
- Applied user-centered design principles to improve task visibility and workflow efficiency.
