+91 8270748708 | balakgbhb@gmail.com | linkedin.com/in/Bala-karuppusamy | github.com/Bala-K3

Experienced in building hands-on projects and developing practical solutions using clean and maintainable code. Strong problem-solving mindset with a focus on developing reliable, scalable, and well-structured applications. Seeking a Software Developer role to contribute to real-world projects while continuously strengthening software engineering skills.

EDUCATION

Bachelor's Degree in Cyber Security 2022 - 2026

Karpagam Academy of Higher Education | CGPA - 8.09

INTERNSHIP

Nithra Apps Private Limited | Tiruchengode | 04/2024 - 05/2024

- Built and styled responsive web pages using HTML, CSS, and JavaScript to improve user interface and experience.
- Worked with Node.js and Express.js to understand how REST APIs handle requests and process data on the server side.
- Gained practical exposure to how frontend and backend systems communicate in a full stack web application.
- Learned how server-side logic is structured and how data flows between the client and server.

PROJECTS

Kanban Board | *React.js, Tailwind CSS, Firebase*

- Developed a full-stack Kanban Board using React and Firebase to manage task workflows across To-Do, In Progress, and Done columns.
- Implemented drag-and-drop functionality for smooth task management across columns.
- Used Firebase Authentication for secure user registration and login.
- Deployed on Netlify with continuous deployment via GitHub.

DocForge | *MERN Stack*

- Developed a PDF Utility Application enabling users to merge PDFs, convert files to PDF, transform images to PDF, and apply password protection.
- Implemented file handling and document processing logic to ensure efficient and secure PDF manipulation.
- Designed RESTful APIs to handle upload, transformation, and download workflows.
- Focused on performance optimization and secure document processing for reliable user experience.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, Java, JavaScript
- **Frameworks & libraries:** React.JS, Node.JS, Express.JS
- **Databases:** MySQL, MongoDB, Firebase
- **Version Control:** Git, GitHub
- **Tools:** Postman
