SUMMARY

B.Tech Artificial Intelligence & Data Science student with strong expertise in Python, SQL, Machine Learning, Generative AI, Large Language Models (LLMs), Prompt Engineering, Flask API Development, Data Analytics, and Power BI. Skilled in developing AI-powered applications, intelligent chatbots, predictive models, and analytics dashboards using modern AI technologies. Experienced with data preprocessing, model training, REST APIs, computer vision, and AI solution deployment. Passionate about leveraging Artificial Intelligence and Data-Driven Technologies to solve real-world business challenges through innovation, automation, and intelligent decision-making.

PROJECTS

RAG-Based Domain Expert Chatbot (DocuMind AI),
Python | LangChain | ChromaDB | LLM | RAG
Built an AI-driven domain expert chatbot using Retrieval-Augmented Generation (RAG) architecture and Large Language Models. Integrated vector databases, hybrid search, document retrieval, re-ranking, and citation-based response generation to provide accurate and traceable answers from domain-specific knowledge sources.

AI Powered CSV Data Analyzer(TARS Analytics),
Python | Pandas | LLM | Ollama | AI Chatbot
Developed an AI-powered CSV analytics platform using local Large Language Models (LLMs) for intelligent data analysis. Implemented automated data preprocessing, natural language querying, insight generation, trend analysis, and interactive visualizations to support efficient AI-driven decision making.

EV Fleet Monitoring and Analytics System (LASE EV),
Python | SQL | Power BI | Machine Learning | AI Chatbot
Developed an AI-enabled EV fleet monitoring system with predictive analytics and intelligent performance tracking. Built interactive dashboards, machine learning models, and an AI chatbot for battery health analysis, range prediction, energy consumption monitoring, and operational optimization

Smart Mining Rover, *ESP32 | IoT | Sensors | Arduino*
Developed an IoT-enabled autonomous mining rover for remote monitoring, navigation, and environmental data collection. Integrated multiple sensors for obstacle detection and real-time data transmission, improving safety and efficiency in hazardous mining environments.

CERTIFICATES

TATA, *GenAI Powered Data Anslytics*

Deloitte, *Data Analytics Job Simulation*

Database Management System,
NPTEL | IIT-based certification

Human Computer Interaction,
NPTEL | Online Certification With (94% Score)

ACHIEVEMENTS

KSR College of Technology
Second Prize – Designathon, DAKSHAA T26 National Level Tech Fest (2026).

EDUCATION

Gnanamani College of Technology,
B.Tech – Artificial Intelligence & Data Science
2023 – 2027 | Namakkal, Tamil Nadu
CGPA: 9.05/10
Focused on AI, Machine Learning, Data Analytics, Python Programming, SQL, and Data-Driven Technologies.

Sri Vidya Mandir Higher Secondary School (CBSE)
2012 – 2023 | Salem,Tamil Nadu
Completed Higher Secondary Education with a strong academic foundation in Mathematics, Computer Science, and Analytical Problem Solving.

SKILLS

Programming – Python, SQL, C
Data Analysis – Pandas, NumPy, Data Cleaning, Data Preprocessing, EDA, Statistical Analysis
Artificial Intelligence & Machine Learning – Machine Learning, Deep Learning, GenAI, LLMs, Prompt Engineering, CV, NLP, RAG
Frameworks & APIs – Flask, REST APIs, FastAPI, LangChain, LlamaIndex, Ollama, ChromaDB, CrewAI, Streamlit, Gradio
Tools & Technologies – Power BI, Excel, GitHub, Jupyter Notebook, VS Code,Ollama, LangChain, ChromaDB, Hugging Face, OpenCV, MediaPipe, MySQL, Arduino IDE, ESP32
Electronics & Embedded Systems – ESP32, Arduino, IoT, Sensor Integration, Embedded Systems, Wireless Communication, Hardware Interfacing.

INTERNSHIP

Bornfire Innovations Private Limited, *July 2025*
Developed a Finger Tracking Mouse Cursor using Python, OpenCV, and MediaPipe. Built Arduino-based automation projects, including an Automatic Plant Watering System, gaining hands-on experience in computer vision, IoT, and automation.

Dopami Print Studio, *July 2026*
Worked on Google Automation, Data Management, and Graphic Designing projects. Contributed to workflow automation, data handling, digital content creation, and process optimization, gaining practical experience in business operations and design tools.

ACTIVITIES

Kongunadu College of Technology,
The Role of Angular in Industries

Mahendra Engineering College,
Entrepreneurship in AI and Power BI Workshop

Knowledge Institute of Technology,
Figma Fest UI/UX Frontend Developing in Figma

INTERESTS

AI & ML | GenAI & LLMs | Data Analytics & BI | NLP & RAG | Computer Vision | AI Chatbots | Full Stack Development | IoT & Embedded Systems | UI/UX Design | 3D Modeling & Design | Emerging Technologies | Prompt Engineering
