Aswin Raj D

B.E. Computer Science & Engineering
Tirunelveli, Tamil Nadu, India — +91 7904170858 — aswinraj790417@gmail.com
GitHub — Portfolio — LinkedIn

Professional Summary

Motivated Computer Science and Engineering student with practical experience in Java, Python, Web Development, and Full-Stack Application Development. Skilled in designing responsive websites, developing REST APIs, and working with modern development tools. Strong problem-solving abilities with a passion for learning new technologies.

Technical Skills

Programming Languages: Java, C Programming
Web Technologies: HTML, CSS, JavaScript, React Native, REST Api
Frameworks & Concepts: Front-End Development, BootStrap
Tools & Platforms: Git, GitHub, VS Code, Netlify, Vercel
Soft Skills: Leadership, Communication, Teamwork, Time Management, Problem Solving

Education

Sri Shanmugha College of Engineering & Technology 2023–2027
B.E. Computer Science and Engineering CGPA: 8.2/10

Sringeri Saradha Vidhyalaya Matric Hr. Sec. School 2023
Higher Secondary Certificate 75%

Projects

CampusMart AI – AI-Powered Student Marketplace

- Tech Stack: React.js, JavaScript, Java, SQL.
- Developed an AI-powered marketplace for buying, selling, exchanging, and donating academic essentials.
- Built a responsive user interface using React.js with reusable components.
- Implemented AI-based product recommendations to improve product discovery.
- Added secure college email verification for authenticated student registration.
- Developed RESTful APIs for user authentication, product management, and order processing.
- Implemented product search, category filters, shopping cart, wishlist, and real-time chat functionality.
- Designed SQL database schemas for users, products, transactions, and orders.
- Used Git and GitHub for version control and collaborative development.

Weather App — HTML, CSS, JavaScript, REST API

- Developed a responsive weather application using HTML, CSS, and JavaScript to display real-time weather information.
- Integrated the OpenWeatherMap REST API to fetch and display temperature, humidity, wind speed, city name, and weather conditions.
- Implemented dynamic weather icons, city search, API response handling, and invalid-city error handling using JavaScript and DOM manipulation.
- Integrated GitHub repositories and deployed the website using Vercel.

Certifications

- Joy of Computing Using Python – NPTEL (2024)
- Cloud Computing – NPTEL (2025)

Achievements & Activities

- Developed and deployed multiple web development projects.
- Maintained GitHub repositories using version control.
- Collaborated with peers on academic and technical projects.
- Improved programming and problem-solving skills through continuous practice.
