ABOUT ME

Full Stack Developer with hands-on experience building responsive, scalable web applications using React.js, Angular, and the MERN stack. Adept at developing RESTful APIs, implementing role-based access control, and delivering intuitive user interfaces. Strong foundation in Java, SQL, and data analysis, with exposure to game development using Unity. Passionate about clean code and data-driven problem solving.

INTERNSHIP EXPERIENCE

GK Digital Hut | Web Developer Intern — **6 Months**

- Developed and maintained frontend applications using Angular and Bootstrap, focusing on responsive design principles.
- Improved UI performance and cross-browser compatibility through iterative testing and optimization.
- Utilized Git and GitHub for version control and team collaboration on live projects.

Oneyes Solution | Data Analyst Intern — **1 Month**

- Developed and maintained frontend applications using Angular and Bootstrap, focusing on responsive design principles.
- Improved UI performance and cross-browser compatibility through iterative testing and optimization.
- Utilized Git and GitHub for version control and team collaboration on live projects.

PROJECTS

School ERP Management System

Tech Stack: *MongoDB, Express.js, React.js, Node.js (MERN)*

- Developed a full-stack School ERP system to manage student records, attendance, and academic data for multi-role users.
- Built RESTful APIs with Node.js and Express.js; implemented CRUD operations and role-based access control (Admin/User).
- Designed a responsive React.js frontend with separate admin and user dashboards for streamlined data management.
- Integrated MongoDB for efficient, scalable storage and retrieval of large academic datasets.

GameVerse — Free-to-Play Game Discovery Platform

Tech Stack: *React.js, Vite, React Router*

- Built and deployed GameVerse, a React + Vite web application that allows users to browse, search, explore, and wishlist free-to-play PC and browser games, powered by the FreeToGame API.
- Implemented multi-page navigation (Home, Browse, Categories, Game Details, Wishlist, Search) using React Router, with a custom Wishlist Context and hooks for persistent, reusable state management.
- Displayed live trending games and new releases via the FreeToGame API, with a responsive UI and Vercel deployment featuring production-ready API handling.

TECHNICAL SKILLS

Frontend: React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Java (OOP), REST API Development

Database: MongoDB, SQL

Tools & Design: Git, GitHub, VS Code, Figma, Framer

Other: UI/UX Design, Responsive Web Design, Data Analysis, Unity (2D/3D Basics)

Soft Skills: Problem Solving, Teamwork, Collaboration

EDUCATION

K.S.R. College of Engineering, Tiruchengode — **2023 - 2027**

B.E in Computer Science and Design

Kongu Vellalar Matriculation Hr. Sec. School, Chennimalai — **2008 - 2023**

Completed 12th Standard with 70.1%
