CAREER OBJECTIVE

Motivated Computer Science Engineering student with knowledge in Python, Web Technologies, and Data Science, seeking an opportunity to contribute to software development and build scalable, user-focused solutions.

EDUCATION

B.E – Computer Science and Engineering 2027
Muthayammal Engineering College (Autonomous), Rasipuram. (Pursuing)
CGPA: 9.0

HSC 2023
Model School, Panamarathupatti, Mallur.
90%

SSLC 2021
Model School, Panamarathupatti, Mallur.
100%

SKILLS

Technical Skills : Python
Web Technologies : HTML, CSS, Bootstrap, JavaScript
Software Tools : Visual Studio Code, Jupyter Notebook, Git & GitHub
Libraries : Pandas, NumPy, Matplotlib
Database Technology : MySQL

INTERNSHIPS

React Developer Intern **– Crescent EdTech**, **Salem (June-July 2025).**

- Learned React.js basics and worked with components and state management.
- Implemented basic CRUD operations and UI functionality in web applications.

Data Science Intern – **Cognifyz IT Solutions Pvt. Ltd** (June -July 2026)

- Worked with Python libraries such as Pandas and Matplotlib for data handling and analysis.

PROJECTS

Title: Shape Builder
Technologies: HTML, CSS, Bootstrap, JavaScript.

- Implemented features to add, view, update and delete events (CRUD operations).
- Learned DOM manipulation, event handling and responsive UI design.

Title: Restaurant Data Analysis
Technologies: Python, Pandas, Matplotlib, Jupyter Notebook

- Performed data preprocessing, EDA, and statistical analysis on datasets.
- Handled missing values and visualized data insights using charts.

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Distributed Systems **(Elite + Silver)**
- NPTEL – Electronic Waste Management, Edge Computing **(Elite)**
