BOOPATHI K

Full Stack Developer

Salem, Tamilnadu | +91 78688 62203 | bkboopathi8834@gmail.com | [LinkedIn] | [GitHub] | [Portfolio]

PROFESSIONAL SUMMARY

Performance-driven **MERN Stack Developer** specializing in building responsive single-page applications (SPA) and scalable backend services using **React.js, Node.js, Express.js,** and **MongoDB**. Proficient in **RESTful API design, JWT authentication, Mongoose schema modeling**, and frontend integration via Axios and React Hooks. Combines core full-stack software development expertise with **3 years of professional experience** in cross-functional **teamwork, requirements analysis, and high-pressure problem-solving**.

SKILL & COMPETENCIES

- **Frontend Development :** React.js, JavaScript (ES6+), HTML5, CSS3, Context API, Axios, Bootstrap, Single Page Applications (SPA), Responsive Web Design, DOM Manipulation
- **Backend Development :** Node.js, Express.js, RESTful API Design, JWT Authentication, Middleware, API Testing
- **Database & Cloud :** MongoDB, MongoDB Atlas, Mongoose Schemas, Database Design, CRUD Operations
- **Developer Tools & Workflows :** Git, GitHub, NPM, VS Code, Vercel Deployment
- **Core Competencies :** Full-Stack Architecture, Code Optimization, Strategic Problem-Solving, Team Collaboration

PROJECTS

Instagram Clone — Full-Stack Social Media Platform | [LiveDemo] | Aug 2026

Technologies : React.js, Node.js, Express.js, MongoDB Atlas, Mongoose, JWT Authentication, REST APIs, CSS3

- Engineered a **responsive full-stack social platform** using the **MERN** stack, supporting real-time feed updates, user dynamic search, and media uploads.
- **Implemented secure authentication** workflows using **JWT** and **LocalStorage** with custom middleware, protecting private routes and user data.
- Designed optimized **Mongoose database schemas** and engineered **RESTful APIs** executing complex **CRUD operations** for posts, profiles, and follower relationships.
- Enhanced client-side page load speed by 30% through **SPA routing** optimization using **React Router, custom Hooks,** and Axios data fetching.

Contact Management System — Full-Stack Web App | [LiveDemo] | Mar 2026

Technologies : React.js, Node.js, Express.js, MongoDB Atlas, Mongoose, Axios, CSS3

- Developed an end-to-end **MERN application** managing client records with full **CRUD functionality,** reducing data entry processing time.
- Built dynamic client-side **filtering** and multi-attribute **sorting** algorithms (Name/Company), increasing search efficiency by 40%.
- Integrated decoupled **REST API** endpoints with a **responsive UI,** featuring robust error-handling mechanisms for seamless user interaction.

Dynamic Form Validation Engine — Frontend Web App | [LiveDemo] | Jan 2026

Technologies : JavaScript (ES6+), HTML5, CSS3, DOM Events, Form Handling

- Built a lightweight, high-performance single-page validation engine using **vanilla JavaScript (ES6+),** eliminating external library dependencies.
- Programmed custom **Regular Expressions (Regex)** and **event listeners** for real-time client-side validation (email, password strength, matching inputs).
- Optimized user submit behavior using **native event flow control (e.preventDefault),** delivering instant inline error feedback and zero invalid payload submissions.

EXPERIENCE

Sales Consultant | Oppo | 2022 – 2025

- Analyzed customer preferences and technical specifications to deliver product solutions, winning the **'Top Target Achiever'** award.
- Managed end-to-end technical troubleshooting and client issue resolution in **high-pressure team environments.**

EDUCATION

Bachelor of Computer Applications (BCA) | 2019 – 2022

KSR College of Arts & Science (Autonomous) — CGPA: 6.87 / 10

CERTIFICATIONS

- MERN Full Stack Development Certification — Livewire, Salem | 2026
- Certification in Advanced Developments in Material Science | 2019
