DEEPAN ALAGESAN

B.Tech Artificial Intelligence and Data Science

Namakkal, Tamil Nadu | +91 8778085042 | deepanalagesan9@gmail.com |

LinkedIn: linkedin.com/in/deepanalagesan | GitHub: github.com/deepanalagesan9-gif

PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence and Data Science student with skills in Python, SQL, Excel, data visualization, and prompt engineering. Interested in working with data, learning new technologies, and solving practical problems. Seeking opportunities to apply technical skills and gain hands-on experience through real-world projects.

EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence and Data Science
Gnanamani College of Technology, Namakkal

Higher Secondary Education (12th)
Government Higher Secondary School, Pudur

TECHNICAL SKILLS

Programming	Python, SQL
Libraries	NumPy, Pandas, Matplotlib, Seaborn, BeautifulSoup
Data & Analytics	Microsoft Excel, Data Visualization
AI	Prompt Engineering
Tools	Power BI, GitHub, VS Code

SOFT SKILLS

- Problem Solving
- Good Listener
- Communication
- Teamwork
- Time Management
- Adaptability
- Quick Learning

INTERNSHIP EXPERIENCE

AI & Data Science Intern | AKS Technologies | 01/07/2026 – 21/07/2026

- Worked on the development of an AI Smart Office System using face recognition for employee identification and authentication.
- Used Python and AI concepts to build and test features for an AI-based office application.
- Worked with team members to understand requirements and implement project solutions.

PROJECTS

AI Smart Office System Using Face Recognition

- Developed an AI-based smart office system for employee identification and authentication using Python and computer vision.
- Designed features to improve office security, automate processes, and reduce manual effort.

InstaFix AI | AI-Based MEP Issue Detection & Solution System

- Developed a hackathon solution to analyze images, identify possible Mechanical, Electrical, and Plumbing (MEP) issues, and provide relevant recommendations.
- Applied image analysis and AI techniques to support faster troubleshooting and reduce manual inspection time.

Amazon Price Data Extraction & Visualization

- Built a Python and BeautifulSoup web scraping project to collect product details, prices, and ratings from an Amazon website.
- Cleaned and structured the data and created visualizations to analyze price patterns and product comparisons.

CERTIFICATIONS & ACTIVITIES

Certifications

- AI & Data Science Internship – AKS Technologies
- Python Certification – Programiz
- Paper Presentation Certificate – KSR College of Engineering, Tiruchengode
- Hackathon – Mahendra College of Engineering, Minnampalli, Salem

Achievements & Activities

- Participated in college-level hackathons and worked on AI-based problem-solving projects.
- Participated in paper presentations and presented technical topics to an audience.
