OBJECTIVE

Entry-level aspirant in Artificial Intelligence and Data Science seeking to apply skills in machine learning, Python development, and IoT-based systems to build practical, real-world solutions in a growth-oriented organization.

EDUCATION

B.Tech, Artificial Intelligence & Data Science - Gnanamani College of Technology *2024 - 2027*
CGPA: 7.17

Diploma in Computer Science Engineering (DCSE) - Muthayammal Polytechnic Institution *2020 - 2023*
Percentage: 80%

SSLC (10th) - AVK Matriculation School - State Board *2020*
Percentage: 68%

PROJECTS

Online and UPI Payment Fraud Detection

Technologies: Python, Scikit-learn, TensorFlow, Pandas, MySQL

- Built an end-to-end machine learning pipeline to detect fraudulent UPI and online transactions using supervised learning models (Random Forest, XGBoost).
- Performed feature engineering and data preprocessing to address class imbalance and improve model reliability.
- Achieved a high F1-score by tuning hyperparameters and benchmarking model performance.
- Integrated MySQL for transaction logging and persistent storage of detection results.

SKILLS

- Problem Solving & System Analysis
- Python Programming
- IoT & Sensor-Based Systems

CERTIFICATIONS

- NPTEL Offline Certification - Human Computer Interaction (English)

ACTIVITIES

- Sports participation (Cricket, Football)
- Cultural activities (Dance, Music, Drama)
- Blood donation camp volunteer
