monika-ranjithkumar.vercel.app

Summary

B.Tech Artificial Intelligence and Data Science undergraduate with a strong foundation in **Java, Python, SQL, OOP, DSA, and DBMS**. Hands-on experience in **full-stack development, backend functionality, database integration, debugging, and data processing**. Familiar with React.js, Node.js, Express.js, MySQL, MongoDB, GitHub, and VS Code, with strong problem-solving skills and interest in software development.

Skills

Programming Languages: Java, Python, JavaScript, SQL
Web Technologies: HTML, CSS, MERN Stack
Databases: MySQL, MongoDB
Machine Learning & AI: Machine Learning Algorithms
Data Analytics: Data Preprocessing, Exploratory Data Analysis, Data Visualization, Power BI, Tableau
Developer Tools: GitHub, VS Code, MS Excel
Core Computer Science: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems
Additional Skills: English Typewriting

Experience

MIST Software Solutions Pvt. Ltd., Coimbatore **Jun 2025 – Jul 2025**
Data Science Intern *MySQL, HTML, CSS, JavaScript*

- Built and tested web applications with **backend functionality and database integration**.
- Managed **MySQL** data storage, retrieval, and processing for application workflows.
- Supported application **debugging, workflow design, and performance optimization**.

CubeAI Solutions, Tiruchengode **Dec 2025 – Jan 2026**
Data Analytics Intern *Power BI, Data Processing*

- Performed **data cleaning, preprocessing, and exploratory data analysis** on structured datasets.
- Created interactive **Power BI dashboards and reports** for analytical reporting.
- Applied data transformations to prepare datasets for analysis and visualization.

Projects

Real-Time P2P Campus Service Hub | *MongoDB, Express.js, React.js, Node.js*

- Engineered a **full-stack MERN platform** for campus collaboration, skill exchange, project collaboration, and resource sharing.
- Implemented **3 core modules** covering real-time chat, project collaboration, and resource sharing.
- Deployed the application on **Vercel** as a live web application.

Zomato Food Express & Analytics | *Python, Flask, MySQL, SQL ETL, JavaScript*

- Built a full-stack food delivery application with **dynamic menu ordering** using Flask, MySQL, and JavaScript.
- Implemented **ACID-compliant transaction processing** for reliable application data management.
- Executed **12 SQL ETL queries** and created Chart.js visualizations for revenue, customer, and payment metrics.

Global Road Accident Data Visualization | *Tableau, Data Analytics, EDA*

- Analyzed accident data to identify trends related to causes, weather conditions, and road safety.
- Designed interactive Tableau dashboards with **KPI cards, charts, filters, and reports**.

Awards & Certifications

- **2nd Prize** – National Level Code Debugging Competition, Nandha Engineering College
- **Diploma in J2EE Programming** – CSC
- **NPTEL** – Cloud Computing
- **Senior Grade English Typewriting**

Education
