PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with hands-on experience developing full-stack applications using the MERN stack. Experienced in building RESTful APIs, reusable React.js components, MongoDB database operations, authentication systems, and frontend-backend integrations using MongoDB, Express.js, React.js, and Node.js. Strong foundation in JavaScript, TypeScript, Git/GitHub, REST APIs, and application performance optimization. AWS Certified Cloud Practitioner with internship, open-source, and full-stack project experience.

TECHNICAL SKILLS

- **Languages:** JavaScript, Java, TypeScript
- **Backend:** Node.js, Express.js, SpringBoot, RESTful APIs, JWT Authentication
- **Frontend:** React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Render, Supabase
- **Core Concepts:** Authentication & Authorization, Data Structures & Algorithms, Object-Oriented Programming

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern – KioTech *[View]* **Dec 2025 – Jan 2026**

- Developed RESTful APIs using Node.js and Express.js with JWT authentication and role-based access control for 6+ application modules.
- Integrated React.js frontend components with backend APIs and implemented MongoDB database operations with query optimization for efficient data retrieval.

Java Programming Intern – CodeAlpha (Remote) *[View]* **Mar 2026 – Apr 2026**

- Developed 3 Java applications using Object-Oriented Programming, including a Stock Trading Platform, AI Chatbot, and Hotel Reservation System.Implemented transaction processing, booking/cancellation workflows,application logic using core Java concepts.

PROJECTS

InterviewAI – AI-Powered Mock Interview Platform **Apr 2026**

React.js, Node.js, TypeScript, MongoDB, JWT + Passport | mock-intervue-ai.vercel.app

- Built a full-stack web application using React.js, Node.js, and MongoDB, supporting 8+ job roles with voice-based Q&A, answer scoring, and PDF resume parsing.
- Developed REST API-based frontend-backend integration with JWT authentication and implemented an ATS resume analyzer with keyword matching and weighted scoring.

RoutineOS – AI-Powered Habit & Routine Builder **Jun 2026**

Next.js, Node.js, Express.js, Supabase, Firebase FCM | routineos-site.vercel.app

- Developed and deployed a responsive full-stack Progressive Web App using Next.js, Node.js, and Express.js for personalized routine generation and habit tracking.
- Integrated backend services, database operations, authentication, and recovery plans, and habit suggestions.

ATS Resume Scanner – AI-Powered Screening Tool **Dec 2025**

React.js, Node.js, Express.js, MongoDB, NLP | ats-resumescanner-ai.vercel.app

- Developed an ATS screening workflow that parses uploaded resumes, evaluates them against job role, experience, degree, and keyword requirements, and generates match scores, ranked candidates, ATS compatibility results, and PDF reports.

OPEN SOURCE CONTRIBUTIONS

Next.js (vercel/next.js, 130k+ stars) | github.com/vercel/next.js/pull/95235 **Jun 2026**

- Corrected misleading documentation regarding fetch caching behavior in the App Router migration guide; PR reviewed and merged into the vercel:canary branch.

EDUCATION

Bachelor of Engineering – Electronics and Communication Engineering **Sept 2023 – Aug 2027**

Excel Engineering College (Autonomous), Komarapalayam, Tamil Nadu. **CGPA: 7.7 / 10**

Relevant Coursework: Web Technologies, Database Management Systems, Cloud Computing.

Achievements: First Prize – Paper Presentation, Kongu Engineering College; Participant – National Level Hackathon "TrixAthon 2025", Erode Sengunthar Engineering College.

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services *[View]* **Nov 2025**
- Cloud Computing & Full-Stack Development Mastery – L&T EduTech *[View]* **Jan 2026**
- Backend Development with MERN – L&T EduTech *[View]* **Dec 2025**
- Python 101 for Data Science – IBM / Cognitive Class *[View]* **Dec 2025**
