EXPERIENCE

Scode Software Solutions *08 Jul 2024 – 10 Aug 2024*
Web Development Intern
Project: EV Recharge Bunk Booking Platform
Technologies: HTML5, CSS3, JavaScript, Firebase Authentication, Firestore, Google Maps API

- Developed a real-time EV recharge slot booking web application with separate Admin and User modules using Firebase Authentication and Firestore for authentication and real-time data management.
- Implemented role-based access and live slot availability to support different functionalities for Admin and User modules.
- Integrated Google Maps API for location-based functionality and deployed the application on GitHub Pages.

PROJECTS

LinkedIn Automation *Test Automation | Java Selenium*
Technologies: Java, Selenium WebDriver, XPath, CSS Selectors

- Developed a Selenium WebDriver automation script using Java to automate LinkedIn profile and search data extraction across multiple pages.
- Implemented dynamic waits, pagination, and scrolling to handle dynamic web elements and multi-page navigation.
- Used XPath and CSS Selectors to identify and interact with web elements reliably, reducing repetitive manual effort.

AI-Powered Quiz Generator Game *AI & Web Development*
Technologies: JavaScript, HTML5, CSS3, REST APIs, AI API Integration

- Developed an interactive quiz application that generates trivia questions, answer choices, and scoring based on user prompts using a generative AI API.
- Integrated REST APIs to exchange data between the web application and the AI service and process API responses.
- Designed a responsive web interface for consistent usability across desktop and mobile devices.

Professional Portfolio Website *Frontend Development*
Technologies: HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap

- Designed and developed a responsive personal portfolio website using HTML5, CSS3, and JavaScript with a mobile-first layout.
- Implemented responsive UI components and animations to provide a consistent experience across desktop and mobile devices.
- Integrated an AI Assistant with external AI APIs to support interactive user functionality.

Food Ordering & Travel Booking App *Frontend Development*
Technologies: HTML5, CSS3, JavaScript, Bootstrap, Figma

- Developed a responsive frontend for a combined food ordering and travel booking web application by converting Figma wireframes into Bootstrap-based web pages.
- Implemented responsive layouts and navigation to provide a consistent user experience across desktop and mobile devices.
