- Data Validation & Quality Assurance | Compliance Verification | CRM Data Management | Report Writing | AI Tools
- ZoomInfo | PitchBook | LinkedIn Sales Navigator | Quantitative Analysis | Prompt Engineering | AI Data Annotation
- Advanced Excel (VLOOKUP, HLOOKUP, XLOOKUP, INDEX-MATCH) | PowerPoint (Basics) | Content Writing
- Company profiling | Firmographics | Executive Contact Verification | Insurance mapping | Cross – functional collaboration

PROFESSIONAL EXPERIENCE

Market Research Analyst Nov 2025 - Apr 2026

Company: OneSky Offshore, Location: Remote

Led end-to-end data research and verification across 7,000+ U.S. healthcare provider records, ensuring firmographic accuracy, data completeness, and compliance with research protocols for client onboarding decisions.

- Collected, analyzed, and validated company and executive contact data including names, titles, phone numbers, emails, and organizational structures with 97%+ accuracy.
- Conducted firmographic research covering company size, industry classification, ownership type, location, and parent-subsidiary relationships to maintain data integrity standards.
- Verified executive contact intelligence and organizational hierarchies across multi-location healthcare networks (5–10+ branches, 20+ providers), ensuring completeness of business records.
- Mapped insurance participation data to identify which healthcare providers and clinics accepted specific insurance plans, updating records accurately in the CRM for client onboarding decisions.
- Identified data discrepancies, fraud indicators, and regulatory red flags, maintaining high data quality and consistency standards across live production workflows.
- Designed structured verification checklists and tagging frameworks to standardize record completeness and improve data searchability across the database.
- Audited and quality-checked research output across a 13-member team, driving process improvements to uphold data quality benchmarks.
- Maintained audit-ready datasets using advanced Google Sheets through fully manual, source-verified workflows.

Subject Matter Expert Sep 2023 - Apr 2025

Company: Straive, Location: Remote

Subject Matter Expert at a global EdTech and research-outsourcing firm, flexibly deployed across academic content quality assurance and market research projects based on business need, maintaining 95%+ quality benchmarks across both functions.

- Delivered high-quality academic solutions and structured content for physics-related problems on the Chegg platform, ensuring conceptual accuracy under strict timelines.
- Performed content quality assurance (CQA) by reviewing and refining structured and unstructured solutions for factual correctness and formatting standards, maintaining 95%+ accuracy benchmarks.
- Conducted peer quality checks and content reviews, evaluating solutions created by other SMEs and providing ratings, feedback, and corrective suggestions.

- Contributed to AI-driven data annotation projects, labeling and classifying 10,000+ data points to improve machine learning model accuracy and analytics outcomes.
- Transitioned into Market Research Analyst responsibilities during inter-project periods, conducting primary and secondary research using verified sources (annual reports, sustainability reports, corporate websites) to support client decision-making.
- Performed company profiling by researching organizational data and updating client databases through structured Excel spreadsheets to support business analysis.
- Executed data validation and quality checks across large research datasets, identifying discrepancies and maintaining a 95%+ quality score across deliverables.
- Managed structured datasets with proper documentation and version control, ensuring audit readiness across both content and research workflows.
- Collaborated with internal teams, quality auditors, and project coordinators to resolve escalations, prioritize workflows, and meet tight deadlines.
- Maintained detailed performance records, quality reports, and workflow documentation to support continuous improvement across both functions.

EDUCATION

M.Sc. Physics - First Class with Distinction, CGPA: 7.9/10 2018 - 2020
Salem Sowdeswari College, Affiliated with Periyar University, Salem

B.Sc. Physics - First Class, CGPA: 7.3/10 2015 - 2018
Salem Sowdeswari College, Affiliated with Periyar University, Salem

CERTIFICATIONS

Prompt Engineering Certification - LearningMate July 2024
Focused on AI prompt engineering, content optimization, workflow automation, and AI-assisted problem solving.
