SUMMARY

Aspiring AI & Data Science engineer with a strong foundation in Artificial Intelligence, Machine Learning, Java, and Python. Experienced in developing real-world projects through internships and hands-on learning. Skilled in Web Development, SQL, Git/GitHub,AI Agent and Data Analytics. Passionate about solving real-world challenges by building innovative and scalable technology solutions. A quick learner with strong analytical, problem-solving, and teamwork skills. Seeking an opportunity to contribute, grow professionally, and create impactful AI-driven solutions.

EXPERIENCE

AI & Python Development Intern *(July 2025)*
Emglitz Technologies, Salem

- Gained practical experience in Artificial Intelligence and Machine Learning by working on real-world use cases and guided technical projects.
- Assisted in data preprocessing, feature engineering, model development, and performance evaluation using Python and machine learning techniques.
- Contributed to the development of AI-driven solutions by analyzing datasets, identifying patterns, and improving model accuracy.
- Collaborated with mentors to research, implement, and optimize AI workflows while strengthening technical, analytical, and problem-solving skills.

Java Developer Intern *(Dec 2025)*
Emglitz Technologies, Salem

- Developed Java applications by applying Object-Oriented Programming (OOP) principles to build modular and maintainable solutions.
- Implemented file handling, exception handling, and debugging techniques to improve application reliability and performance.
- Collaborated with mentors on real-world development tasks while following coding standards and best practices. Strengthened problem-solving and analytical skills through hands-on development, testing, and code optimization.

PROJECTS

Dental Clinic Booking System *(2026)*
Tools & Technologies Used- *React.js*, *TypeScript*, *Supabase*, *Vercel*
Live Demo : *https://dental-clinic-booking-two.vercel.app/*

- Developed a full-stack dental appointment booking platform with online scheduling and patient record management.
- Integrated Supabase (PostgreSQL) for authentication and real-time database operations.
- Built a responsive user interface using React.js and TypeScript, ensuring a seamless user experience.
- Deployed the application on Vercel for reliable hosting and accessibility.

AI-Powered Gmail & Google Sheets Automation *(2026)*
Tools & Technologies Used - *n8n*, *OpenAI*, *Gmail*, *Google Sheets*

- Built an AI-driven workflow automation using n8n to retrieve and filter Google Sheets data, process selected records through an OpenAI-powered AI Agent, and generate structured outputs.
- Automated Gmail communication and result logging, reducing repetitive manual email and spreadsheet-processing tasks through an end-to-end workflow.
- Integrated Structured Output Parser for consistent AI responses and designed the workflow with scheduled execution and customizable filtering logic.
- ***GitHub*** : *https://github.com/harshineeshree/n8n-ai-agent-gmail-sheets*

Handwritten Character Recognition *(2026)*
Tools & Technologies Used *- Python, TensorFlow, Scikit-learn*

- Developed a machine learning model to recognize handwritten characters using image processing techniques.
- Performed data preprocessing, model training, and evaluation to improve prediction accuracy.
- Utilized TensorFlow, NumPy, Pandas, and Matplotlib for model development and visualization.

Credit Scoring Model *(2026)*
Tools & Technologies Used *- Python, Scikit-learn, Pandas, NumPy*

- Developed a machine learning model to predict customer creditworthiness using financial data.
- Performed data preprocessing, feature engineering, and model training for accurate predictions.
- Evaluated model performance using classification metrics to improve prediction reliability.
- Visualized data insights and model results using Pandas and Matplotlib

SKILLS AND CERTIFICATIONS

Technical Skills :

- **Programming Languages :** Java, Python, JavaScript
- **Frameworks & Libraries :** React.js, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow
- **Databases :** PostgreSQL (Supabase)
- **Web Technologies :** HTML5, CSS3
- **Tools & Platforms :** Git, GitHub, VS Code, Vercel, Supabase, Jupyter Notebook, Google Colab, n8n
- **Data Visualization Tools :** Microsoft Excel

Achievements :

- Completed Artificial Intelligence and Java Developer internships at Emglitz Technologies, gaining hands-on industry experience.
- Developed and deployed 5+ software and AI projects using Java, Python, React.js, TypeScript, Supabase, and Machine Learning, Served as a Master of Ceremony (MC) for college events, demonstrating strong communication skills.
- Maintained a CGPA of 8.6/10 while balancing academics, internships, certifications, and technical projects.
- Continuously upskilling through certifications and hands-on learning in Artificial Intelligence, Machine Learning, Data Analytics, and Full-Stack Development.

Certifications :

- IBM SkillsBuild - Artificial Intelligence Fundamentals
- NPTEL - Data Mining For Decision Making
- TATA - GenAI Powered Data Analytics Job Simulation
- HP Life - Professional Networking for Career Growth
- LinkedIn Learning - Introduction to Career Skill in Data Analytics
- Cisco Networking Academy - Data Analytics Essentials
- Cisco Networking Academ - Introduction to Data Science
- National Institute of Technology (NIT), Trichy - Machine Learning

Soft Skills :

- Strong Analytical Thinking & Problem Solving
- Quick Learner & Adaptability
- Team Collaboration & Communication
- Time Management & Self-Motivation
- Critical Thinking & Attention to Detail
- Continuous Learning Mindset

EDUCATION

Bachelor of Technology in Artificial Intelligence *(Current CGPA: 8.6 / 10) - 3rd rank* — *Sep 2023 – Oct 2027*
Anna University, Chennai - 600025

Sowdambikaa Girls Higher Secondary School *(Rank : 71.5 %)* — *2021-2023*
Trichy, Tamil Nadu

Servite Matric Higher Secondary School *(Rank : All Pass)* — 2017-2021
karur , Tamil Nadu
