Objective

Motivated Computer Science graduate with 1 year of experience in Data Annotation at GT Studio. Experienced in data labeling, quality checking. Detail-oriented and committed to delivering high-quality work. Seeking an opportunity to contribute my analytical skills in a dynamic organization while continuing to grow professionally.

Experience

Data Annotation Specialist, *Innouora Technologies* 01/2025 – Present
GT Sudio

- Performed video and image annotation to support AI and machine learning model training.
- Labeled and categorized objects, actions, and events with high accuracy.
- Maintained data quality and consistency according to project guidelines.
- Reviewed and validated annotated data to ensure correctness.
- Worked with large datasets and followed strict annotation standards.

Education

B.Sc. Computer Science, *Vidyaa Vikas College Of Arts & Science* 2025
7.17 CGPA

Higher Secondary Education, *Government Boys Higher Secondary School* 2022
61.5

Secondary Education, *MDV Higher Secondary School* 2020
70.2

Skills

Tools:GT sudio and CVAT

2D & 3D Bounding box annotation

MS Office
Word, Excel, PowerPoint,HTML,CSS,SQL

Other Skills
Data structures and Algorithms,Problem solving

Achievement

I published and presented a research paper on Machine Learning at the 7th International Conference held at KSR College of Arts and Science. The paper explored key advancements, applications, and challenges in Machine Learning, contributing to academic discussions and knowledge sharing in the field of Artificial Intelligence.

Internship

Angular Training 06/2024
NGB Corporates Under the guidance of Ms. Sureka Rajeshwari. Gained hands-on experience in Angular framework, front-end development, and best coding practices. Developed a project as part of the training, enhancing skills in web application development. Coimbatore
