LinkedIn: linkedin.com/in/ krishna-k-r-7b0b22374

PROFESSIONAL SUMMARY

Results-driven Quality Control Chemist with [2 years] of experience in chemical analysis, laboratory testing, and quality assurance within food industries. Proficient in analytical techniques (FT-NIR), Good Laboratory Practices (GLP), and regulatory standards (ISO, GMP). Known for precise documentation, problem-solving, and ensuring product compliance with stringent quality benchmarks.

KEY SKILLS

- Analytical Techniques: UV-Spectrophotometer, FT-NIR, Rotational Viscometer, Titration
- Method Validation & Stability Testing
- Good Laboratory Practices (GLP) & Good Manufacturing Practices (GMP)
- SOP Development & Compliance
- Instrument Calibration & Maintenance
- Data Analysis & Reporting
- ISO & Regulatory Guidelines
- Team Collaboration & Problem-Solving

PROFESSIONAL EXPERIENCE

QUALITY CONTROL CHEMIST

[SPAC Starch products India Pvt Ltd], [Poonachi] – Present

• Conduct routine chemical, physical, and testing of raw materials, intermediates, and finished products.

• Perform method validation, stability studies, and assay testing using FT-NIR and other instruments.

• Ensure compliance with GMP and ISO guidelines through meticulous documentation and report preparation.

• Maintain and calibrate laboratory equipment to ensure accuracy and reliability of test results.

• Collaborate with production and R&D teams to resolve quality-related issues and improve processes.

INSTRUMENT PANEL OPERATION

[Chemplast Sanmar Pvt Ltd plant-3], [Mettur] | [10-2019] – [10-2022]

• FERRONICKEL FURNACE handling for anhydrous system to maintain HI-TECH salt temperature above 420°c.

• Instrument panel operation to control values and equipment’s.

• Triple effect evaporator monitoring for caustic concentration unit.

• Cooling tower monitoring for condenser.

• Manufacturing 48% lye and caustic soda.

• Maintain 5S and 4R guidelines.

EDUCATION

Bachelor of Science (B.Sc.) – Chemistry
[Mahendra arts and science college], [Kalipatti] | [2018]

INSTRUMENT HANDLING AND TESTING

- Distillation unit
- FT-NIR Spectrometer
- Tensile strength tester
- UV-Spectrophotometer
- Moisture balance
- pH meter
- Aflatoxin tester
