PRABHAVATHI U

Software Developer | Full Stack Development | Python | Java | JavaScript

Erode, Tamil Nadu | prabhaudhaya8972@gmail.com | GitHub | LinkedIn

CAREER OBJECTIVE

Aspiring Software Developer with a strong foundation in programming and web development, seeking an entry-level Software Developer role to build scalable applications and solve real-world problems through clean and efficient software solutions.

EDUCATION

Bachelor of Technology — Artificial Intelligence & Data Science 2023 – 2027
Sengunthar Engineering College | CGPA: 8.54 / 10

Higher Secondary Certificate (HSC) 2023
Fatima Girls Higher Secondary School, Nilgiris | Percentage: 70%

TECHNICAL SKILLS

Programming: Python, Java, C, C++, JavaScript, SQL

Frontend: HTML5, CSS3, Tailwind CSS, React Native, Expo

Backend: Python, Java, REST APIs

Database: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Postman

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, API Integration, Authentication, Debugging, Version Control, Responsive UI Design

EXPERIENCE

AI/ML/DL & Data Analytics Intern — Novitech Pvt. Ltd.

- Working across AI, Machine Learning, Deep Learning, and Data Analytics tasks in a live internship environment, applying model building and data-driven problem-solving to real assignments.

Artificial Intelligence Intern — Gozler Ed Tech Pvt. Ltd. May 2026 (15 Days)

- Trained on AI fundamentals, ML workflows, and NLP concepts; applied them to sample datasets for model building and evaluation practice.

PROJECTS

Life-OS | Personal Operating System

- Developing a full-stack productivity mobile application that combines tasks, habits, notes, goals, journal, and calendar into a single platform.

Tech: React Native, Expo, JavaScript, Tailwind CSS, PostgreSQL, Git, GitHub

Multi-Domain Support Triage Agent | HackerRank Orchestrate Hackathon

- Built an intelligent support ticket triage system that classifies, resolves, or escalates requests across multiple domains using NLP-based classification logic.

Tech: Python, NLP, SQL, JavaScript

Fake News Detection using AI & Automation

- Developed an NLP-based application that classifies news articles through text preprocessing and machine learning prediction.

Tech: Python, Scikit-learn, HTML, CSS, JavaScript

CERTIFICATIONS

- Cloud Computing Certification — NPTEL (12 Weeks)
- AI/ML/DL & Data Analytics Internship Certification — Novitech Pvt. Ltd.
- Artificial Intelligence Internship — Gozler Ed Tech Pvt. Ltd.
- AI & Machine Learning Masterclass — Certificate of Completion
- Google AI Essentials — Google Certification
- IBM AI Engineering Professional Certificate
