DHEENADAYALAN S

Software Developer

Karur, Tamil Nadu, India | +91 63807 22363
sdheenadayalan896@gmail.com | linkedin.com/in/dheenadayalan-s

Professional Summary

Entry-level Software Developer with a foundation in front-end and back-end web development and project experience in AI-based applications, database-driven platforms, and automation. Familiar with Python, Java, JavaScript, PHP, HTML, CSS, MySQL, and MongoDB, with an interest in developing responsive web applications and full-stack solutions.

Technical Skills

Programming Languages: Python, Java, C, JavaScript, PHP
Web Technologies: HTML, CSS, React (Basics), Bootstrap, Tailwind CSS
Databases: MySQL, MongoDB (Basics)
Tools and Platforms: GitHub, Visual Studio Code, UiPath, Canva
AI and Machine Learning: Deep Learning (Basics), Scikit-learn, AI Tools Utilization
Additional Skills: Automation Basics, Team Collaboration, Problem Solving, Quick Learning, Pressure Handling

Experience

Web Developer Intern *Mar 2025 – May 2025*
EdiGlobe (Zhagaram Technologies)

- Built responsive web pages using HTML, CSS, and JavaScript.
- Applied basic back-end and database concepts while contributing to web development tasks.
- Worked with team members on real-world development activities.

Projects

SchemeSense – AI-Powered Public Scheme Eligibility Engine and Guidance Assistance
AI | Deep Learning | NLP | Python | MongoDB | Web Development

- Designed an AI-powered web application concept to help citizens identify potentially relevant government welfare schemes using profile details such as income, education, health, family details, and location.
- Used a multi-label classification approach to recommend multiple potentially relevant schemes to a user.
- Combined recommendations with rule-based eligibility checks, required-document guidance, and step-by-step application information.

AI-Driven Personalized Fitness and Nutrition Platform
Python | MySQL | Machine Learning

- Developed a Python- and MySQL-based system to generate personalized fitness and nutrition plans based on user goals and health data.
- Implemented machine-learning functionality to suggest workout routines and diet plans.

FruitKart – Online Fruit Vendor Platform
React | PHP | MySQL

- Built a web-based platform that connects users with nearby fruit vendors for online ordering.
- Implemented user authentication, product management, and order-tracking functionality.

Plant Disease Detection App
Python | *Deep Learning* | *Flask* | *Smart India Hackathon*

- Worked on a Smart India Hackathon project concept for identifying plant diseases from leaf images using deep learning.
- Focused on helping farmers access disease-identification results and suggested remedies.

Direct Market Access for Farmers
HTML | *CSS* | *JavaScript* | *PHP* | *MySQL*

- Created a digital platform concept that enables farmers to sell products directly to buyers without intermediaries.
- Included product listing, search, and order-management features.

Accident Prevention System
Arduino | *Sensors* | *Embedded Systems*

- Developed an Arduino-based safety system using sensors and embedded-system concepts to help reduce vehicle-accident risks.

Dynamic Web Form Automation
UiPath | *Automation*

- Automated dynamic web-form filling with UiPath to improve process consistency and reduce repetitive manual work.

Education

B.E. in Computer Science and Engineering
Chettinad College of Engineering and Technology | 2022–2026 | **CGPA: 7.57**
HSC – Municipal Boys Hr. Sec. School, Karur | 2021–2022 | 50%
SSLC – Government Hr. Sec. School, K.P. Thazhaippathy | 2019–2020 | 63%

Certifications and Workshops

- Completed an 11-course MongoDB series covering Atlas, CRUD operations, aggregation, and performance optimization.
- Web Development Certification – EdiGlobe (2 months).
- Full Stack Development Masterclass (30 days).
- Participant – AMD AI Hackathon.
- Participant – Intel Gen-AI Hackathon.
- Active Member – Google Developers Programme.

Achievements

- **Winner – AMD Perspective AI Contest (2024)**; received a MinisForum UM790 Pro PC for an innovative AI solution.

Declaration
