CAREER OBJECTIVE

BE Computer Science graduate with strong expertise in SQL, Python, Excel, Power BI, Tableau, Machine Learning, and Artificial Intelligence. Passionate about delivering accurate, high-quality insights by designing data-driven solutions, building scalable analytics pipelines, and developing predictive models. Seeking a challenging Data Analyst role in a reputable organization where I can leverage analytical skills to enhance business intelligence, improve operational efficiency, and support strategic decision-making in a dynamic environment.

SKILLS SECTION

Programming Languages: SQL, Python, AIML-LLMs, Snowflake.
Tools and Technologies: Excel, Advanced Excel, Power BI, Tableau, Jira, Notion.
Cloud Platform: AWS, Google Cloud Platform.
People Skills: Team Collaboration, Project Management, Customer Service, Communication, Problem Solving.

EDUCATION

KONGU ENGINEERING COLLEGE, Perundurai, Erode
BE Computer Science and Engineering
June 2021 – March 2025

PROJECTS

HUMAN RESOURCES ANALYSIS

Tools & Skills: Power BI, DAX, Data Modeling
Domain: Employee count, Salary cost and Attendance

Developed an interactive Power BI HR dashboard to analyze workforce metrics including employee count, salary cost, attendance, and leave patterns, enabling data driven HR decision-making across multiple locations.

DISTRICT LEVEL PRODUCTION & TRADE ANALYSIS

Tools & Skills: Power BI, DAX, Data Modeling
Domain: Production, Economy and Trade

Designed and developed an end-to-end Power BI dashboard to analyze district-level production, plant performance, profitability and trade trends enabling data driven decision-making for management.

IT TICKET ANALYSIS

Tools & Skills: Power BI, DAX, Data Modeling
Domain: Ticket volume, Resolution time and Severity

Built an interactive Power BI dashboard to analyze IT service desk tickets, focusing on ticket volume, resolution time, severity & priority to improve operational efficiency and support performance monitoring.

ROADWAYS OPERATION ANALYTICS

Tools & Skills: Power BI, DAX, Data Modeling
Domain: Trip, Passenger, Revenue and Occupancy

Built an interactive Power BI dashboard to analyze roadways operations, focusing on route performance, passenger demand, bus fleet utilization, revenue efficiency & service delays to improve operational efficiency and support data-driven decision-making.

COURSES

DATA ANALYST | DATA SCIENCE Bangalore, KA
Completed **Data Analyst & Data Science** Certification course in Besant Technologies, Electronic City.

CERTIFICATIONS

- Data Analytics at **NOVITECH**
- AI Dashboard using Microsoft Power BI at **SKILLS NATION**
- ML using Python Frameworks at **UNIBUDDY**
