CAREER OBJECTIVE

Final-year Electronics and Communication Engineering student with a strong foundation in embedded systems, IoT, and industrial automation, built through academic projects and hands-on internship training. Skilled in C programming, circuit design, and sensor-based applications, with a keen interest in developing practical microcontroller solutions. Seeking an entry-level engineering role where I can apply my technical fundamentals, contribute to real-world projects, and grow into a proficient embedded systems and automation professional.

EDUCATION

B.E. Electronics and Communication Engineering — Final Year *CGPA: 7.77*

J K K Nataraja College of Engineering and Technology

TECHNICAL SKILLS

- Embedded Systems: Microcontroller fundamentals and embedded design concepts
- IoT: Core concepts and connected-device applications
- Industrial Automation: Foundational concepts and practical exposure
- Programming: C programming
- Electronics: Circuit design, components, and sensor integration
- Application Development: Front-end development fundamentals

INTERNSHIP / TRAINING

Embedded Systems & IoT – Hands-on Internship *03 Feb 2025 – 10 Feb 2025*

Caliber Embedded Technologies India Pvt. Ltd.

- Completed hands-on training in embedded systems and IoT, gaining practical exposure to embedded concepts and IoT-based application development.

ACADEMIC / PERSONAL PROJECTS

Interactive Assistive Panel for Oral Disability Patients

- Designed an assistive communication concept enabling orally disabled patients to express their needs through a simple, accessible interface.

Smart Street Light System

- Developed a smart street-lighting solution focused on automatic operation and energy-efficient illumination using sensor-based control.

Bharat Waste Hero – Waste Segregation Awareness App

- Built a front-end application to educate users on correct waste segregation practices through simple, engaging awareness content.

CERTIFICATIONS & ACHIEVEMENTS

- Code Emy Campus Ambassador (March 2026): Recognized for leadership, communication, and outreach skills.
- PCB Design using Autodesk Fusion (12 February 2026): Completed hands-on workshop at Vimach Academy, JKKNCET.
