SUMMARY

Computer Science and Engineering student graduating in 2027 with hands-on experience in software and web application development using Java, Python, JavaScript, PHP, HTML, CSS, Flask, and SQL. Experienced in developing database-driven applications, implementing authentication, debugging application and database issues, and working with Python-based AI/ML projects. Strong foundation in programming, object-oriented programming, database management, problem solving, and software development.

EDUCATION

Vivekanandha College of Technology For Women **2023 - 2027**
Computer Science and Engineering
CGPA:8.11

St Kanakadasa Matriculation Higher Secondary School **2022-2023**
12th Percentage: 74 - **10th** percentage: ALL PASS

TECHNICAL SKILLS

- **Languages**: Python, Java, SQL, JavaScript
- **Web:** HTML, CSS, Bootstrap, PHP
- **Data & Analytics:** Power BI, MS Excel, Pandas
- **Database:** MySQL, SQLite
- **Tools:** VS Code, Git/GitHub, Jupyter Notebook, XAMPP

INTERNSHIP EXPERIENCE

Web Development Intern | NEXTGEN Solutions **June 2025 – July 2025**

- Developed a Recruitment Management System using HTML, CSS, JavaScript, PHP, MySQL and Bootstrap for candidate application management.Implemented form validation, authentication, password hashing and SQL database operations using XAMPP, phpMyAdmin and VS Code..

AI/ML & Data Science Intern | Codebind Technologies **June 2026 – July 2026**

- Developed a Smart Review Analyzer and Customer AI using Python, Pandas and NLP techniques with DistilBERT-based sentiment analysis.Performed data preprocessing, customer support ticket analysis and text classification to identify sentiment patterns.

PROJECTS

- **IoT-Based Smart Anti-Theft Laptop Security System | ESP32, IoT, GPS, PIR, Vibration, Fingerprint, Blynk**

Developed a smart security system with movement/access detection, GPS tracking, fingerprint authentication, and real-time Blynk alerts**.**

- **Smart Review Analyzer and Customer AI**

Analyzed customer support data to identify sentiment, trends and customer issues. Used Python-based data processing and AI/NLP techniques for automated review analysis.

- **Recruitment Management System**

Built a web-based career application portal using PHP, MySQL, HTML, CSS and JavaScript.Implemented database-driven application management and secure authentication.

CERTIFCATIONS

- Attended a workshop in the KSR College of Engineering in the topic of Artificial Intelligence
- Completed NPTEL course in the topic of PYTHON FOR DATASCIENCE with the percentage of 51.6 on (24.3.25)
- Successfully completed training in Advanced MS Excel, including Pivot Tables, VLOOKUP, Charts, Data Analysis, and Report Generation.
