Professional Summary

Creative and detail-oriented Front-End Developer (MCA, 2026) with strong hands-on experience in React.js, Angular, JavaScript, HTML5, CSS3, and responsive web design. Proven ability to convert UI/UX designs into pixel-perfect, user-friendly, and visually compelling interfaces across devices. Backed by a unique combination of software engineering expertise and a background in 3D modelling and visual design — bringing a strong aesthetic sense and attention to visual quality to every interface built. Proficient in Git version control and REST API integration. Strong problem-solving and communication skills developed through cross-functional collaboration across multiple real-world projects and internships.

Technical Skills

Front-End Core: React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3
UI/UX & Design: Responsive Web Design, Tailwind CSS, Flexbox, CSS Grid, UI Component Design, Visual Quality, Design-to-Code Conversion, Three.js (3D/WebGL)
Frameworks & Libraries: React Hooks, React Router, Angular Components & Services, Node.js, Express.js
REST APIs & Integration: RESTful API Consumption, Axios, Fetch API, JWT Authentication, Postman
Version Control: Git, GitHub (branching, pull requests, code review workflows)
Backend (Supporting): Java, Spring Boot, Node.js, MongoDB, MySQL
Design Sensibility: 3D Modelling (Blender, Unreal Engine), Visual Composition, Colour Theory, Spatial Design

Experience

Front-End Developer (Full Stack) May 2026 – Jun 2026
Myenum *Salem, Tamil Nadu*

- Led front-end development using React.js, building responsive, component-based interfaces with strong attention to visual quality and cross-device rendering consistency
- Converted UI/UX design specifications into production-ready, user-friendly interfaces using HTML5, CSS3, JavaScript, and Tailwind CSS — ensuring pixel-perfect accuracy
- Integrated React components with backend REST APIs, implementing clean data flow and maintaining separation of concerns across the front-end architecture
- Applied Git-based version control workflows including branching strategies and pull request reviews, collaborating effectively with cross-functional design and backend teams
- Demonstrated strong problem-solving skills by debugging rendering inconsistencies and optimizing UI performance across mobile and desktop viewports

Java & Full Stack Developer Trainee Jun 2025 – Jul 2025
GA Cyber Tutor *Remote*

- Built responsive, user-friendly front-end interfaces using React.js, JavaScript, HTML5, and CSS3, applying modern ES6+ features and component-driven architecture
- Consumed RESTful APIs using Axios and Fetch API, integrating dynamic backend data into interactive React UI components with JWT-based authentication flows
- Implemented Git workflows across 3+ full-stack projects, managing branches, commits, and code reviews in collaborative team environments
- Applied responsive design principles (Flexbox, CSS Grid, Tailwind CSS) to ensure consistent, accessible interfaces across varying screen sizes and browsers

Frontend Web Developer Intern Jun 2023 – Jul 2023
Aalan Infotech *Salem, Tamil Nadu*

- Developed responsive, cross-browser-compatible web interfaces using HTML5, CSS3, and JavaScript, reducing reported layout issues by an estimated 35%
- Applied semantic HTML and CSS best practices to produce clean, maintainable, and visually consistent UI components for client-facing web solutions
- Communicated design and implementation decisions clearly to stakeholders, demonstrating strong communication skills in a client-facing project environment

Projects

3D Solar System Simulation | *Three.js, JavaScript, WebGL, HTML5, CSS3*

- Designed and developed an interactive browser-based 3D visualization using Three.js and WebGL — showcasing advanced front-end UI/UX thinking combined with strong visual design sensibility
- Built intuitive camera navigation controls and orbit mechanics for an immersive, user-friendly interface experience without any backend dependency
- Optimized rendering performance to maintain 60 FPS across devices, applying front-end performance best practices including geometry management and scene culling

Smart Research Assistant | *React.js, Spring Boot, REST APIs, JWT, MySQL*

- Built the full React.js front end — including component architecture, routing, state management, and API integration — converting design requirements into a polished, responsive interface
- Consumed JWT-secured REST APIs with Axios for real-time AI-driven content display, ensuring smooth, user-friendly data interactions across the application UI
- Applied Tailwind CSS for rapid, consistent, and visually refined UI styling aligned with modern design standards

Bug Tracker with AI Ticket Classification | *React.js, JavaScript, REST APIs, MongoDB, JWT*

- Designed and implemented the complete front-end SPA using React.js with role-based UI rendering, dynamic form components, and responsive layout across all viewport sizes
- Engineered a browser extension for in-context bug reporting — demonstrating strong front-end problem-solving skills and attention to user experience design
- Applied Git branching workflows and peer code reviews throughout development, maintaining high front-end code quality and visual consistency

Disaster Rescue Web Application | *React.js, Tailwind CSS, Node.js, REST APIs, MongoDB*

- Converted complex UX requirements into a responsive, accessible React.js interface with Tailwind CSS, optimised for mobile-first usage in emergency field scenarios
- Integrated REST API endpoints to display real-time rescue data, building dynamic and user-friendly data-driven UI components with clean visual hierarchy

Education

AVS College of Engineering — Salem, Tamil Nadu
Master of Computer Applications (MCA) | *GPA: 3.60 / 4.0* — *Sep 2024 – Jul 2026*

- Coursework: Data Structures & Algorithms, Database Management Systems, Software Engineering, Object-Oriented Design

Sona College of Arts and Science — Salem, Tamil Nadu
Bachelor of Computer Applications (BCA) | *GPA: 3.14 / 4.0* — *Sep 2021 – Apr 2024*

- Coursework: Computer Networks, Software Design, Software Testing, Data Structures

Certifications

- Oracle Certified Foundations Associate – Agentic AI (2026)
- Full Stack Development and High-Level Design – MakeMyTrip
- Building a Career in Full Stack Web Development
- Fundamentals of Digital Marketing
