PROFILE

AI & Data Science undergraduate with hands-on experience in machine learning workflows, IoT embedded systems and full stack development. Built a MERN healthcare platform with an AI recommendation engine and a hardware smart pill dispenser, and placed 2nd at a department-level college innovation challenge.

TECHNICAL SKILLS

Programming Python · Java · SQL · JavaScript
Web & Frameworks HTML · CSS · React.js · Node.js · Express.js · Flask · REST APIs · Postman
Databases MySQL · SQLite · MongoDB
AI & Data Science Machine Learning · Deep Learning · Pandas · NumPy · Scikit-learn · OpenAI API · Data Analysis
Tools & Platforms Git · GitHub · VS Code · PyCharm

PROFESSIONAL EXPERIENCE

AI & ML Intern — Appin Technology, Coimbatore

- Completed the full AI workflow on guided projects: data preparation, model training and evaluation.
- Used Python to preprocess datasets and develop introductory AI models.

AI & ML Intern — Nitroware Technologies

- Collaborated on real-world, technology-driven analytical projects, applying Python to AI/ML workflows.

FEATURED PROJECTS

Zenvora Healthcare — Online Medical Purchasing Platform

MongoDB · Express.js · React.js · Node.js (MERN) · Python · AI Recommendation Models

- Developed a full stack e-commerce medical web application with a smart AI recommendation engine that benchmarks identical drugs across multiple retail stores, tracking live pricing, rating indexes and brand trust tiers.
- Integrated dashboard logic that triggers automatic pill-reminder alarms and real-time notifications for warehouse stock refills and out-of-stock events.

Movie Recommendation System

Machine Learning · Python · Scikit-learn · Pandas

- Engineered a collaborative and content-based filtering recommendation engine.
- Applied cosine-similarity models and user history logs to suggest items matched to user preferences and viewing context.

Smart Pill Dispenser

IoT · Arduino · Embedded Systems · C++ · Microcontrollers

- Designed and built an automated IoT medication dispenser.
- Configured microcontrollers, sensor feedback streams and timed alert routines for reliable medication management.

EDUCATION

B.Tech — Artificial Intelligence & Data Science *2023 – Present*
Nandha Engineering College, Tamil Nadu (Autonomous Institution)
CGPA (up to Semester 5): 7.80 / 10.0
Sem 1: 7.889 Sem 2: 7.556 Sem 3: 7.739 Sem 4: 7.760 Sem 5: 8.158

Higher Secondary Course (HSC / 12th) *March 2023*
Govt Higher Secondary School, Muthur | Percentage: 73.5%

SSLC / 10th *March 2021*
Govt Hr Sec School, Muthur

ACHIEVEMENTS

- 2nd Prize Winner – College Innovation Day (Department Level)

LANGUAGES

English (Professional), Tamil (Native)
