WORK EXPERIENCE

NextXR (AR/VR Solution Australia) *(June 2025 - March 2026)*

- Designed a responsive conference platform for the Australian & New Zealand Crypto Con (speakers, schedules, sponsors), simplifying registration flows to reduce drop-off during signup.
- Built the Aus Crypto Con event-management dashboard, replacing scattered manual coordination with one unified view for tracking attendees, speakers, and sponsors.
- Designed conversion-focused e-commerce UI for Aussie Solar & Battery and GoUrban (solar and smart-wearable products), improving product discovery and checkout completion.
- Designed immersive VR/simulation interfaces for BITS Pilani (Lab Simulation UI) and Maruti Suzuki & BENZ VR training (EEE, Biochemistry, Medicinal Chemistry labs, and car/engine-parts assembly), boosting learner engagement across all three programs.
- Designed the website, mobile app, and admin dashboard for FlexMotion Technologies end-to-end, including onboarding flow, sign-up forms, and CTA placement to drive early sign-ups.
- Designed clean, CTA-driven event pages for My Money Expo, improving event registrations and lead-generation flow
- Designed a website for Uncommon Collective to showcase its workshops, founder programs, community events, and impact-driven services

Quantum Sharq Innovative Solutions *(June 2024 - May 2025)*

- Designed an end-to-end HR portal streamlining employee data management, attendance tracking, leave requests, and performance monitoring, improving internal workflow efficiency.
- Led UI/UX design across web and mobile for a physiotherapy service platform adopted by 6+ physio clinics, reducing manual paperwork through digital booking and patient management, and earned the Moment Award for UI/UX Design (2025).
- Designed responsive web and mobile interfaces for real-time CCTV monitoring, alert management, and surveillance tracking, prioritizing quick-glance access to live feeds and security insights.
- Designed intuitive web and mobile interfaces for a smart attendance system integrated with payroll and HR functions, simplifying workflows for organization-wide adoption.
- Designed a secure, mobile-first monitoring system UI to protect a temple's gold-plated tower from tampering or theft, enabling remote monitoring and instant alerts.
- Designed a seamless grocery shopping app focused on easy navigation, product discovery, and frictionless checkout to boost user retention and conversion.
- Designed real-time dashboards and mobile interfaces for battery health tracking and theft prevention, featuring instant alert systems within a clean, functional layout.
