VARSHINI S V

Salem, Tamil Nadu, India | varshinisv2004@gmail.com | 9790513663 | linkedin.com/in/varshinisv24 | github.com/VarshiniVenkatesan

PROFILE

Software Engineer with hands-on experience in Java, Python, React, Vue.js, and modern AI technologies. Passionate about building practical, scalable applications and solving real-world engineering problems through full-stack development, AI/ML, and Agile collaboration. Experienced in developing RESTful APIs, database-driven applications, intelligent automation tools, and LLM-powered solutions, with a strong focus on writing clean, reliable, and user-centric software.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript

Backend & Web Technologies: Spring Boot, Spring Security, Hibernate/JPA, FastAPI, Flask, Node.js, React.js, Vue.js

Databases: MySQL, MongoDB

Developer Tools & AI: Git, GitHub, Maven, Linux, Postman, Azure OpenAI, GitHub Copilot SDK, LangChain, RAG, LLM-based Agents

PROFESSIONAL EXPERIENCES

SDE Intern | Lumen Technologies India *Feb 2026 - Present · Bangalore, Karnataka*

- Developed backend automation applications using FastAPI, TypeScript, and MongoDB, designing RESTful APIs for internal engineering workflows
- Built an AI-powered automation testing tool using Playwright and GitHub Copilot SDK to automate testing workflows and improve engineering productivity.
- Integrated Azure OpenAI into AI-driven solutions and collaborated in an Agile development environment to build, debug, and deliver production-oriented software

Research Intern | IIT Kharagpur *Jul 2025 - Sep 2025 · Kharagpur, West Bengal*

- Developed an LLM-driven autonomous agent for container migration and self-healing in distributed environments.
- Built a RAG pipeline over Hadoop HDFS using LangChain and Ollama for retrieval and reasoning across large datasets.
- Implemented intelligent monitoring, failure detection, and automated recovery workflows to improve system reliability.

Research Intern | IIT Guwahati *Nov 2025 - Jan 2026 · Online*

- Worked independently on applied AI projects using Python and Git, strengthening self-directed problem-solving.

Machine Learning Intern | Infosys Springboard *Nov 2024 - Jan 2025 · Online*

- Built a data pipeline to analyze blockchain transactions and detect potential wash trading using Python.
- Applied anomaly detection and time-series forecasting models to identify abnormal trading patterns.

PROJECTS

Order Management System
Java, Spring Boot, Spring Security, MySQL, Hibernate, REST APIs

- Developed a backend order management system with JWT-based authentication and role-based access.
- Built RESTful APIs for users, products, inventory, and order processing using Spring Boot and MySQL.
- Modeled relational database entities with Hibernate and implemented inventory validation during order placement.

Subscription Management System
Java, Spring Boot, Spring Security, MySQL, Hibernate, REST APIs

- Developed a backend subscription platform for managing plans, customers, renewals, and subscriptions.
- Designed RESTful APIs with secure JWT authentication and role-based authorization for admin and customer modules.
- Modeled relational database entities using Hibernate and MySQL to manage the subscription lifecycle and billing records.

Library Management System
Python, Flask, HTML, CSS, JavaScript, REST APIs

- Developed a backend library management system with JWT-based authentication and role-based access.
- Built RESTful APIs for book catalog, borrowing, returns, reservations, and member management.
- Designed a relational MySQL database with inventory tracking and overdue return validation.

EDUCATION

B.E. Computer Science and Engineering - Velalar College of Engineering and Technology, Erode | *2022 – 2026* | *CGPA: 8.43*
Higher Secondary Education - Sri Amman Matric Higher Secondary School | *2020 – 2022* | *88%*

CERTIFICATIONS

· Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
· Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
· Oracle AI Vector Search Certified Professional
· Python for Data Science, AI & Development (Coursera)

LEADERSHIP & ACTIVITIES

· ***President***, English Literary Association (2023-2025) · ***Student Coordinator,*** Women Empowerment Cell & Infosys Springboard (2023-2025)
· Finalist, PALS Aqua Cleaning Device Challenge, IIT Madras (2024-25) & Dark Patterns Buster Challenge, IIT BHU (2023)
