VIJAYABHARATHY R P

Data Analyst | Python | SQL | Power BI | Excel

+91 63856 39497 | vijayabharathy.rp@gmail.com | linkedin.com/in/vijayabharathy/

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data cleaning, analysis, visualization, and dashboard development using Python, SQL, Excel, and Power BI. Experienced in transforming datasets into actionable insights through internships and academic projects. Strong foundation in data analytics, reporting, and problem-solving, seeking an entry-level Data Analyst opportunity.

TECHNICAL SKILLS

Languages & Libraries: Python (Pandas, NumPy), SQL (MySQL)
BI & Data Visualization: Power BI (DAX, Data Modelling, Interactive Dashboards), Tableau
Data Analysis & Reporting: Data Cleaning, Data Analytics, Exploratory Data Analysis (EDA), Reporting
Excel: Pivot Tables, VLOOKUP, Advanced Formulas, Dashboard Development
Tools & Platforms: Jupyter Notebook, VS Code, GitHub

EXPERIENCE

Data Analyst Intern | *Vinsup InfoTech Pvt Ltd, Coimbatore* | Jan 2026 – Mar 2026

- Cleaned and transformed raw business datasets using Python (Pandas) and Excel, standardizing formats and resolving inconsistencies across multiple data sources to improve data accuracy.
- Developed 3+ interactive Power BI dashboards with DAX measures to visualize sales performance and customer trends, directly supporting stakeholder decision-making.
- Automated repetitive data processing workflows using Python scripts, reducing manual effort by ~30% and improving overall reporting efficiency.

Project Intern – *Nataraja Incubation Forum* | *JKKN Institutions, Namakkal* | Mar 2025 – Jun 2025

- Collected, cleaned, and organized multi-source research datasets, ensuring data integrity for ongoing bioconvergence research projects.
- Performed exploratory data analysis (EDA) and maintained structured documentation, enabling reproducibility and contributing to 2 research milestone completions.

PROJECTS

Netflix Data Analysis Dashboard | *Power BI, Excel*

- Cleaned and transformed 8,000+ Netflix records in Excel — resolving missing values, duplicates, and inconsistent formatting to prepare a high-quality analytical dataset.
- Designed interactive Power BI dashboards with drill-down functionality to visualize genre distribution, content ratings, and country-wise production trends; extracted actionable business insights on top content categories.

Sales Data Analysis | *SQL*

- Developed SQL queries using filtering, joins, and aggregation to analyze sales performance and revenue trends.
- Identified top-performing products and seasonal sales variations through structured analysis.

Document Expiry Tracking & Reminder App | *Python, SQL*

- Built a full-stack application with automated email alerts based on configurable document expiry thresholds.
- Used Python and SQL to support automated tracking and database management.

EDUCATION

B.E. Computer Science and Engineering | 2022 – 2026

J.K.K.N College of Engineering & Technology, Namakkal | CGPA: 8.43

CERTIFICATIONS

NPTEL (SWAYAM) – Design Thinking and Innovation

Soft Skills Development Program – Unnati & Infosys Foundation

ACHIEVEMENTS

Best Academic Performer 2025–26

SDG Hackathon Participant – StartupTN
