EDUCATION

2009-2013

SETHU INSTITUTE OF TECHNOLOGY

- Bachelor of engineering - Mechanical department

LANGUAGES

- English
- Tamil

SOFT SKILLS

- **MS office**
- **Auto CAD**

ABOUT ME

Overall Work Experience : 11 Years
Experienced 1.5 years at aluminium extrusion plant specializing interior design aluminium products
Experienced in Fengtay group overall 9.6 years as TECH engineer skilled in Bottom and cutting and model handiling techniques. Handled several projects regarding quality , cost savings , effeciency. To learn and deliver my duties for effective functioning in organization and to reach responsible position in future work for the betterment of company in any circumstances

WORK EXPERIENCE

Jan 2018- sep 2026

FAIRWAY ENTERPRISED PRIVATE LIMITED - FA1,Fengtay group of company - Krshnagiri

TECH ENGINEER

Junior Engineer B:

- After training period successfully completed from LU1 joined in FA1
- Learned the RB , IP process and well known know about the trouble shooting techniques.
- Enhanced the abilty to monitor the process flow and quality align with the standards.

Junior Engineer A:

- Handle the projects individually in new model of bottom related operations
- Improved the skills in commercialization knowledge .
- Confirmed the RB molds and improved the confirmationStockfiting process learned. knowledge.
- Trained new persons for my job roles..
- Certified MQA auditor in RB .
- Improved the Communication SKills with PCC.

Engineer E:

- Skilled in PU process and mold confirmation.
- Improved the skill in upper cutting process tooling confirmation.
- Have well knowledge in lamination process,Travel head cutting, swing arm cutting, beam press cutting
- 2D pressing/ atmospheric heat pressing / HF process /Embroidery process.
- Taken new model project as cutting engineer upto 50+ style codes.

ACADEMIC PROJECTS

- Plastic mold making technology in CIPET
- Participated in SAE projects

- Mini project: Applying mechanical load on piezo electric to prduce power

- Main project : Design of fixturefor an engine sub assembly weldings (3 process combined in single jigs)

PROFESSIONAL SKILLS

- Project Management
- Tech job role and responsiblities
- Time Management
- Leadership
- Effective Communication
- Innovative thinking
- RCA and Trouble shooting techniques

Engineer - D:

- Certified MQA auditor in Cutting process
- Trained the new team to handle cutting process.
- Have knowledge in OKC and IRB machines
- Learned the new model handling techniques with my superior guidence and handled 3 models with more than 50+ stylecodes and colorways.
- Improved the skills to train the team to handel new models

SPECIAL CALL OUTS:

1.Worked as Bottom Engineer on below models

AIRFORCE1 (RB)
NCV PS/TD (RB)
NIKE EBERNON(RB)
PIC-5 PS (RB)
PICO-5TD (RB)
COURT BOROUGH 2 GS (RB)
COURT BORUOGH 2 TD (RB)
AIR MAX AXIS (IP/RB)

2.Worked as Model Engineer on below models:

COURT BOROUGH RECRAFT GS
NIKE COURT VISION

- SPA handled in NCV model for 3 more seasons succesfully completed without anymore quality issues by on time delivery in short lead time . Received merit record.

3.KAIZEN REWARDS:

1.PU mold coaing peel off control: Saved the cost , life time, effeciency increased rework rate reduced. It was selected in EE kaizen and received the rewards.

2.PU air bag user friendly placement project done and received the rewards

4.PROJECTS:

- Efficiency improvement process
- Material savings project done in leather , accessories and bottom
- Quality improvement.

Mar 2017 - Jan2018

LOTUS FOOTWEAR PVT LIMITED - LU1 Fengtay group of company, Kanchipuram

JUNIOR ENGINEER - TECH

- Joined as Junior Engineer B at LU1 in TECH department.
- Learned the tech roles and responsiblities and implement industry specific techniques and process under guidence.
- Support senior staff with production, quality control and project management task.
- Gathered the technical knowledge in bottom process.
- Improved the skills and trained in IP process.

July 2014 - Jan2016

UNIC ALUTECH PVT LIMITED,- Aluminium extrusion plant, Bommsandra, Banglore

PRODUCTION ENGINEER

- Deliver the precise quality of aluminium interior interior design products
- From raw material receive to product delivery process supervised individually via quality control, effeciency, testing process, team leading, documenting.
