OBJECTIVE

My name is Gokul, and I am a final-year Computer Science and Engineering student at Sri Shanmugha College of Engineering and Technology. I am passionate about programming, software development, and emerging technologies. I enjoy developing innovative projects and continuously improving my technical skills. I am eager to apply my knowledge in real-world environments and build a successful career in the technology field.

EDUCATION

Sri Shanmugha College of Engineering and Technology
Pullipalayam, Salem District
Tamil nadu

B.E Computer Science And Engineering
| CGPA : 8.75
Batch : 2023 - 2027

Gv Higher Secondary School
Masilapalayan, Mettur
Tamilnadu

Computer Science
| Percentage : 70 %
Batch : 2016 - 2022

CERTIFICATIONS

Successfully completed an NPTEL course with 65% score.
Gained fundamental knowledge of AI concepts, techniques, and applications.
Gained knowledge of Prompt Engineering and effective AI prompting techniques.
AWS Certified AI Practitioner-AWS

PROJECTS

CareMe Plus - Application

Developed a healthcare assistance web application to help users manage essential health-related information and services.

- Used Python Flask for backend development and SQLite for secure data storage.
- Implemented features for health record management, appointment tracking, and user assistance
- Integrated intelligent features to provide users with quick and personalized healthcare support.

NammaKart – Online Shopping Webpage

Built a modern e-commerce website focused on providing a simple, fast, and engaging online shopping experience.

- Developed a responsive product catalog with search, category filtering, and product details.
- Created a clean and responsive interface using HTML5 and CSS3.

Programming Languages: Python, C++ , SQL, HTML , CSS , Java, Javascript
Tools: Microsoft Excel, MySQL
Platforms: Google Colab, Visual Studio Code, HackerRank,Antigravity

EXPERIENCE & ACTIVITIES

Technical Learning & Development |

- Developed knowledge in Python, SQL, JavaScript, Flask, Machine Learning, and Prompt Engineering.
- Developed CareMe Plus, a healthcare assistance web application using Python, Flask, SQLite, HTML, CSS, and JavaScript.

Problem Solving & Practice |

- Practiced programming and problem-solving through coding platforms such as HackerRank.
- Applied data preprocessing, exploratory data analysis (EDA), and data visualization techniques to derive meaningful insights.

ACHIEVEMENTS

Completed a Prompt Engineering Certification and gained practical knowledge of AI prompting techniques.
Developed multiple real-world projects including CareMe Plus and NammaKart – Online Shopping Webpage.

Language | Tamil & English
