Professional Summary

I want to start my career as a Mechanical Design Engineer. I have learned engineering fundamentals and basic CAD software like CATIA V5 during my studies. I enjoy designing mechanical components and learning new technologies. As a fresher, I am ready to learn from experienced engineers and contribute to the company's projects.

Skills

- Manufacturing: Casting, Machining, CNC.
- Production: Process Planning, Production Planning.
- Quality: 7 QC Tools, Quality Control, Metrology, GD&T, Fits & Tolerances(Basic).

Internship Experience

NLC INDIA LTD. **Jan 2025**

- Completed industrial training in the SME Section at NLC India Limited.
- Learned the basics of industrial gearbox design, maintenance, and failure analysis.
- Observed mechanical equipment inspection and quality practices.
- Gained practical exposure to industrial maintenance and safety procedures.

Sky Breeze AC Solutions – HVAC Industrial Trainee **Jun 2026**

- Completed an industrial internship in HVAC field operations.
- Learned basic duct design and AC system installation.
- Assisted in site visits and project coordination.
- Gained knowledge of office management and customer handling.

Projects

PacBot – Team Project **March 2025**

- Developed a PacBot using IRsensors ,Arduino Uno. And design body in CATIA
- Participated in the Kurukshetra Symposium at Anna University, Chennai.

Solar-Powered Grass Cutter (Mini Project) **April 2026**

- Designed and fabricated a solar-powered grass cutter with adjustable cutting height.
- Integrated solar-powered components for eco-friendly operation.
- Tested and optimized the prototype for efficient grass cutting.
- Developed practical skills in fabrication, assembly, and testing.

Education

BE .in MECHANICAL ENGINEERING AT Government College Of Engineering Salem : **GPA: 7.11**

Higher Studies at Saraswathi Matric Higher Secondary School, Attur **Mark Percentage : 80.5%**

Volunteering & Extra Curricular Activities

- Active member of the Rotaract club in our Institution.
- Serving as the Event Coordinator for Technical event and SME member of our department
