SUMMARY

Entry-level Software Developer with 7 months of internship experience in Java Full Stack Development and a strong academic background in Computer Engineering. Hands-on exposure to web application development, object-oriented programming, frontend technologies, and software development fundamentals. Completed an AI-based engineering project focused on smart energy optimization using modern technologies. Seeking an opportunity to contribute to software development teams while continuously enhancing technical expertise.

SKILLS

Programming: Java, JavaScript
Frontend: React, HTML5, CSS3
Backend: Spring Boot, RESTful APIs
Database: MySQL
Core Concepts: OOPS, DBMS, Data Structures & Algorithms, Computer Networks

PROJECTS

Fire Detection System *Jan 2026 – Mar 2026*

- Developed a full-stack AI surveillance command center integrating React, Node.js, and Socket.io for real-time video streaming and instant anomaly telemetry.
- Engineered a unified computer vision pipeline utilizing YOLOv8 for pose/fire detection and a PyTorch 3D-CNN for temporal action recognition including running, falling, and intrusion.
- Architected a multi-threaded Flask API to isolate heavy neural network inference from the main video feed, maintaining a stable 20 FPS stream with zero UI blocking.

Personal Portfolio Website *Jan 2024 – Mar 2024*
HTML, CSS, JavaScript, React

- Designed and developed a responsive portfolio website to showcase projects, resume, and technical skills.
- Implemented dynamic UI components using React and optimized layout using HTML5 and CSS3.
- Improved accessibility and cross-browser compatibility for enhanced user experience.

INTERNSHIP

Web Development Intern *Jun 2024 – Aug 2024*
Coursera

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Collaborated on real-world projects, enhancing UI performance and usability.

Software Developer Intern *Jan 2026 – Aug 2026*
Tap Academy – Bangalore

- Developed Java-based applications by applying object-oriented programming principles.
- Built responsive web pages using HTML and JavaScript.
- Collaborated with trainers and peers to complete coding exercises and mini projects.
- Strengthened programming, logical reasoning, and application development skills.

ACHIEVEMENTS

- Solved 200+ LeetCode problems, strengthening problem-solving and algorithmic skills.
- Participated in Hackathon 2024, collaborating in a team-based competitive environment.

EDUCATION

B.E. in Computer Science Engineering *2022 – 2026*
AVS Engineering College CGPA: 8.2

Higher Secondary Certificate (HSC) *2020 – 2022*
Government Boys Higher Secondary School, Pennagaram 67.3%

Secondary School Leaving Certificate (SSLC) *2019 – 2020*
Government Boys Higher Secondary School, Pennagaram 77.8%
