CAREER OBJECTIVE

Dedicated and curious Computer Science student with a strong foundation in Python, SQL, Java and backend development using Supabase. Eager to learn new technologies and solve real-world problems through hands-on project work. Disciplined and team-oriented, with practical experience building and deploying projects, including one adopted by the college. Seeking an entry-level opportunity to apply my technical skills and contribute to a growth-oriented organization.

TECHNICAL SKILLS

Languages: Python, SQL, Java
Web Technologies: HTML, CSS, JavaScript
Libraries & Frameworks: NumPy, Pandas, OpenCV
Tools & Platforms: VS Code, Jupyter Notebook, Git, GitHub, Supabase
Additional Skills: Backend Development (Supabase), Requirements Analysis, Debugging, Version Control, AI Tools

PROJECTS

Smart Attendance System **July 2025 – August 2025**

- Designed and built a digital attendance management system to replace manual tracking.
- Automated attendance recording and report generation, reducing manual errors.
- Implemented data validation logic to keep records accurate, reliable and consistent.
- Generated attendance analytics to support administrators in decision-making.

Digital Suggestion Box **Nov 2025 – Jan 2026**

- Developed a digital platform for collecting and managing suggestions and feedback.
- Designed a database schema to securely store and manage submitted responses.
- Built features for tracking and reviewing submissions; project adopted by the college.

Drowsiness Detection System **Sep 2025 – Oct 2025**

- Built a driver drowsiness detection system using Python and OpenCV to monitor eye movements and detect fatigue.
- Implemented real-time detection and alert mechanisms to improve driver safety.
- **Technologies:** Python, OpenCV, Computer Vision, NumPy

WORK EXPERIENCE (AS A STUDENT)

Student Developer – Technology Startup **Present**

- Working on live projects using HTML, CSS and JavaScript for front-end development.
- Building backend functionality with Supabase and managing code with Git and GitHub.
- Developed leadership, collaboration and problem-solving skills while balancing work with academics.

EDUCATION

Bachelor of Science (B.Sc.), Computer Science – Nandha Arts and Science College (Autonomous), Erode **2024 – 2027**
Score: 70% (up to 4th semester)

Higher Secondary Education – Higher Secondary School, Ingur **2023 – 2024**
Score: 87%

ACHIEVEMENTS

- Won 2nd place for a team project at the college Innovation Day.
- Participated in college-level hackathons.
- Digital Suggestion Box project selected for implementation at the college.

CERTIFICATIONS

- HTML Certification – SoloLearn
- Soft Skill Development – NPTEL
