sowmiyaprakash004@gmail.com

Address
Namakkal, Tamil Nadu

About Me

ECE graduate with knowledge of embedded systems, IoT and circuit testing. Passionate about testing, troubleshooting, and improving the performance and reliability of electronic systems. Quick learner with strong analytical skills

Education

BE ECE | 2022–2026 | CGPA: 8.2
Kumaraguru College of Technology, Coimbatore

HSC (2022) | 93.3%

SSLC (2020) | 90.6%

Skills

- C, Embedded C
- Python
- SQL
- PCB
- Arduino

Tools

- Keil uVision 5
- Arduino IDE
- VS Code
- ThingSpeak

Soft Skills

- Analytical Thinking
- Problem Solving
- Critical Thinking
- Team Collaboration
- Adaptability

languages

Tamil: Fluent
English: Fluent
Hindi: Intermediate
German: Basics

Projects

Gas Leakage Detection System

Developed an embedded system using Tiva C launchpad and MQ2 gas sensor for real-time gas detection. Implemented automatic alert system using GSM (SMS and call notifications).Integrated relay-controlled exhaust fan and servo motor for automatic gas cut-off mechanism.

Smart Parking System (IoT-Based)

Designed an IoT-based parking system using Arduino, IR sensors, and servo motor.Implemented real-time parking slot monitoring and display system.Enabled wireless data transmission using Bluetooth module.

Cattle Heat Stress Monitoring System

Built an IoT-based system using ESP8266, temperature and heart-rate sensors. Implemented real-time monitoring using ThingSpeak cloud platform.Applied machine learning (Random Forest) for stress prediction.Integrated computer vision (YOLO) with sensor data for improved accuracy.

Internship

Embedded Systems
Enthu Technology Solutions India Pvt Ltd (May–June 2025)
Gained hands-on experience in embedded systems, sensor interfacing, and IoT applications

Certifications

- Certification in Advanced Diploma in Python Programming
- Participated in Global Biotech Council conducted by IITMadras
- Participated in Antenna Design Workshop
- Certification in basics of PCB

Soft Skills

- Problem solving
- Teamwork
- Adaptability
