OBJECTIVE

Aspiring Artificial Intelligence and Data Science student with a strong academic background and hands-on project experience in developing real-world projects. Seeking an opportunity to apply my technical knowledge, contribute to innovative projects and gain valuable industry experience.

EDUCATION

B.Tech - Artificial Intelligence and Data Science
Kongunadu College of Engineering and Technology, Trichy — ***CGPA: 9.47***
HSC — 2023
Little Angels Educational Institutions, Namakkal — ***87.5%***
SSLC — 2020
Little Angels Educational Institutions, Namakkal

TECHNICAL SKILLS

- **Programming:** Java, Python, SQL
- **AI & ML:** RAG, ML algorithms, Probability, Statistics, Data Preprocessing, Feature Engineering, Model Evaluation
- **Libraries:** NumPy, Pandas, Scikit-learn
- **Web Technologies:** HTML, CSS
- **Databases & Tools:** MySQL, Git

PROFESSIONAL EXPERIENCE

Research Intern - *National Institute of Technology (NIT), Tiruchirappalli.* June 2025 - July 2025

- Contributed to a research project on an AI-based Lightweight Blockchain Security Model (AILBSM) for secure and privacy-preserving Industrial IoT (IIoT) systems.

Machine Learning Intern – *Codveda Technologies* July 2026 – August 2026

- Built and evaluated machine learning models using Python, Pandas, and Scikit-learn on structured datasets.
- Applied data preprocessing, feature engineering, and model evaluation techniques to improve predictive performance.

KEY PROJECTS

AI-Based Dysarthric Speech Recognition System February 2025 – April 2025

- Built a speech recognition application to transcribe dysarthric speech into readable text and generate clear voice output.
- Utilized Whisper AI for speech-to-text conversion and implemented audio processing techniques to support assistive communication for speech-impaired patients.

Brain Tumor Classification January 2026 - March 2026

- Developed a brain tumor classification model using TensorFlow, EfficientNet and OpenCV to analyze MRI images and identify tumor categories.
- Processed over 10,000 medical images to improve diagnostic precision in brain tumor detection.

ACHIEVEMENTS

- Presented a Paper on "AI-Based College Chatbot for Student Query Management" at Annapoorna Engineering College and secured 1st Prize.
- Presented a project on "AI-Based Dysarthric Speech Recognition System for Speech-Impaired Patients" in a project Expo at PSG Engineering College and secured 2nd Prize.
- Selected Participant at the IEEE Regional Meet 2025 & ICT Innovation Challenge, PSG College of Arts and Science.
- Finalist at SustainAI 2025 Hackathon, VIT Chennai.

CERTIFICATIONS AND LEADERSHIP

- **Certifications:** Java Programming, Python for Data Science, Machine Learning Fundamentals.
- **Leadership:** Student Representative, Department club Member.
- **Communication:** Master of Ceremonies (Multiple events), Public Speaking Skills.
- **Soft Skills:** Presentation Skills, Adaptability and Team Collaboration
