CAREER OBJECTIVE

Java Full Stack Developer fresher with a strong foundation in Core Java, Advanced Java, Java 8, Object-Oriented Programming, Collections Framework, JDBC, Hibernate, JPA, Spring, Spring Boot, REST APIs, SQL, and MySQL. Completed B.E. in Electronics & Communication Engineering from Government College of Engineering, Dharmapuri with a CGPA of 7.5/10, along with comprehensive Java Full Stack development training. Hands-on experience in developing database-driven web applications using Java, Spring Boot, JPA/Hibernate, REST APIs, and SQL. Seeking an entry-level Java Developer role to contribute to scalable software applications and grow as a professional software developer.

TECHNICAL SKILLS

- ***Programming Languages:***
  Java, Python (Basics), C (Basics)
- ***Core Java Concepts:***
  Core Java, Advanced Java, Java 8 Features, Object Oriented Programming (OOP), Java Collections Frameworks, Exception Handling, Multithreading
- ***Backend Technologies:***
  JDBC, Hibernate, JPA, Spring Core, Spring MVC, Spring Boot, REST APIs
- ***Database Technologies:***
  SQL, MySQL, PostgreSQL
- ***Frontend Technologies:***
  HTML5, CSS3, JavaScript (ES6)
- ***Tools & Technologies:***
  Git, GitHub, Maven, Postman, pgAdmin, Eclipse, IntelliJ IDEA, VS Code, MySQL Workbench

EDUCATION

- **Bachelor of Engineering (B.E.) – Electronics & Communication Engineering** 2022 – 2026
  Government College of Engineering, Dharmapuri | CGPA: 7.5/10
- **Higher Secondary Certificate (HSC)** 2021 – 2022
  South Indian Matric Higher Secondary School, Salem | Percentage: 86.6%

INTERNSHIP/EXPERIENCE

Java Full Stack Trainee | JSpiders | Jan 2026 - Aug 2026

- Completed comprehensive Java Full Stack development training covering Core Java, Advanced Java, Java 8, JDBC, Hibernate, JPA, SQL, MySQL, HTML5, CSS3, and JavaScript.
- Applied Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, and database connectivity concepts through hands-on coding and application development.
- Developed backend applications using Spring Core, Spring MVC, Spring Boot, REST APIs, and JPA/Hibernate with hands-on experience in database-driven application development.
- Used Eclipse, IntelliJ IDEA, MySQL Workbench, Postman, and Maven for application development, API testing, and project implementation.

AI & Cloud Intern | Edunet Foundation × IBM SkillsBuild × AICTE | Jul 2025 – Aug 2025

- Completed a 4-week industry-focused internship on Artificial Intelligence and Cloud Computing using the IBM Cloud Platform.
- Gained practical exposure to machine learning concepts, cloud services, and AI-based application development through hands-on training.
- Earned an IBM SkillsBuild certification in Artificial Intelligence and Cloud Technologies endorsed by AICTE.

C/C++ Programming Intern | Luisant Software Solutions | Jan 2025

- Completed a 15-day internship covering C and C++ programming fundamentals, data structures, and problem-solving techniques.
- Developed practical knowledge of memory management, pointers, and embedded systems programming concepts.
- Strengthened programming and debugging skills through hands-on exercises involving microcontroller interfacing and hardware communication.

PROJECTS

1. ***Food Ordering Application | Java Full Stack*** *https://github.com/Karthikthailappan/food-ordering-app*

Tech Stack: Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs, PostgreSQL, HTML5, CSS3, JavaScript, Postman, Maven

- Developed a full-stack food ordering application with a frontend using HTML5, CSS3, and JavaScript and a backend using Java and Spring Boot.
- Implemented RESTful APIs for managing customers, restaurants, food items, cart, orders, and payments.
- Used Spring Data JPA and Hibernate for ORM and relational data management with MySQL.
- Integrated frontend components with backend REST APIs and tested API endpoints using Postman.

2. ***Bank Management Application*** *https://github.com/Karthikthailappan/Bank_Management_Application*

Tech Stack: Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs, MySQL, Postman

- Developed a backend application for managing banking operations using Spring Boot and RESTful APIs.
- Implemented database-driven functionality using Spring Data JPA, Hibernate, and MySQL.
- Designed and integrated entity relationships to manage customer, account, and banking-related data.
- Tested and validated REST API endpoints using Postman.

ACHIEVEMENTS

- 1st Prize – Naan Mudhalvan IoT Hackathon conducted by SFJ Business Solutions at KSR College of Technology (2025)
- 2nd Prize – Mini Project Expo conducted by Government College of Engineering, Dharmapuri (2025)
- Participated in 5+ technical workshops on Artificial Intelligence, Cybersecurity, Embedded Systems, and VLSI Technologies.

CERTIFICATIONS & WORKSHOPS

- AI Horizons: Expanding the Future of Intelligence
- Cyber Security and Embedded Systems Workshop
- VLSI SystemVerilog Workshop
- AI and Green Skills Workshop

SOFT SKILLS

Communication | Team Collaboration | Problem Solving | Quick Adaptability | Analytical Thinking
