SUMMARY

Final-year Electronics and Communication Engineering student with a strong academic record and knowledge of Java, SQL, DBMS, OOP, and basic Data Structures. Experienced in developing technology-based projects and solving problems through academic projects and internships. Interested in building a career as a Full Stack Engineer and developing practical skills in software development and application technologies.

EDUCATION

Knowledge Institute of Technology, Salem **2023-2027**
B.E. Electronics and Communication Engineering
CGPA: **9.12**

Government Higher Secondary School, Vaiguntham **2022-2023**
HSC – **87.16**

2021-2022
SSLC

TECHNICAL SKILLS

- **Programming:** Java, C
- **Database:** SQL, DBMS Fundamentals
- **Programming Concepts:** OOP, Basic Data Structures
- **Testing & Troubleshooting:** Software Testing, Debugging, Problem Solving
- **Tools:** VS Code
- **IoT & Technology:** IoT Fundamentals, ThingSpeak, Blynk

INTERNSHIP EXPERIENCE

- **Rishcode** – VLSI Intern (Jun 2025)
- **Aalan Tech Soft, Salem** – Embedded Systems Intern (Dec 2024 – Jan 2025)
- **BSNL, Salem** – Telecom Intern (Jul 2024)
- **Sans Innovation, Salem** – Basic Embedded Systems Intern (Feb 2024)

PROJECTS

- **Air Pollution Control System –** Developed an IoT-based system to monitor air-quality parameters using sensors and provide real-time alerts.
- **Smart Electric Fence System –** Developed a monitoring system to detect unauthorized activity and generate alert notifications.
- **Smart ID Card System –** Developed an RFID-based access control system for secure user identification and access management.
- **Smart Health Monitoring System –** Developed an IoT-based system for monitoring health parameters and transmitting data for remote monitoring.
- **IoT-Based Pet Feeder –** Developed an ESP32-based system for remotely controlling pet feeding.

ACHIEVEMENTS

- **Grand Finalist –** Smart India Hackathon 2025
- **Finalist –** MSME Hackathon 2025
- **Participant –** TN Impact Hackathon 2026
- **First Prize –** Poster Presentation
- **Paper Presentation** – Machine Learning
- **Paper Presentation** – IoT-Based Food Spoilage Detection
