Eshabegum Mohammed Ali

eshabegum074@gmail.com | +91-8072104355| LinkedIn

Career Objective

To begin my professional career in a challenging and growth-oriented environment where I can apply my technical knowledge, analytical skills, and communication abilities while continuously learning and contributing to the organization's goals.

Skills

Technical Skills: C++, Python, HTML, SQL
Data Analytics: MS Excel, Power BI, Tableau
Tools: GitHub, VS Code
Soft Skills: Communication, Leadership

Education

M.E. -VLSI DESIGN
Vivekananda College of Engineering for Women, Namakkal | **2026 - Present**
B.E. - Electronics and Communication Engineering
Vivekananda College of Engineering for Women, Namakkal | **2022 – 2026**
Government Higher Secondary School, Thiruchengode -HSC |2022
Government High School, Thiruchengode –SSLC |2020

Projects

AI-Powered Monitoring of Crop Health, Soil Condition and Pest Risk Using Multispectral/Hyperspectral Imaging and Sensor Data

- Developed an IoT-based system to monitor crop health and soil conditions using sensors and ESP32-CAM for image capture.
- Proposed AI-based sensor and image-data analysis for crop health and pest-risk monitoring, with multispectral/hyperspectral imaging as future enhancement.

IoT-Based Railway Track Inspection Robot

- Developed an Arduino-based robotic system using IR/ultrasonic sensors, motors and Bluetooth for railway track inspection.
- Implemented IoT-based monitoring with alerts for track issues and integrated solar-powered charging for autonomous operation

Experience

Full Stack Developer Intern | National Small Industries Corporation (NSIC) | Duration: 3 weeks
• Participated in a 3-week internship focusing on modern web development practices.
• Created and optimized responsive designs using HTML, CSS, and JavaScript.

Certifications, Workshop & Conferences

- Paper Presentation – International Conference on Quantum Electronics, Intelligent System, Smart Healthcare & Sustainable Engineering Technologies (QEISSET) – 2026 Paper: "AI-Powered Monitoring of Crop Health, Soil Condition and Pest Risk Using Multispectral/Hyperspectral Imaging and Sensor Data"
- Real-Time Applications using LabVIEW with Arduino – PSG College of Technology -2024
- AICTE IDEA Lab Workshop on Drone Assembly & Flying – Vivekananda College of Engineering for Women -2024
- Drone Technology Workshop (Acumen'24) – Kongu Engineering College -2024
