SUMMARY

AI and Data Science student with a strong foundation in Java, Python, SQL, data structures, and algorithms. Apply problem-solving skills through coding practice and academic projects while developing knowledge of software development and cloud technologies. Interested in building practical software solutions and continuously strengthening technical skills.

SKILLS

- **Programming Languages:** Java, Python, SQL
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Software Development Lifecycle
- **Cloud & DevOps:** AWS, Git, GitHub, CI/CD
- **Design:** UI/UX Design

EXPERIENCE

Cloud & AI Intern — National AI Systems LLC *11/2025 – 05/2026*

- Deployed a static portfolio website using Amazon S3 and CloudFront for global content delivery.
- Configured HTTPS and Route 53, and implemented CI/CD pipelines.
- Built a serverless visitor counter using AWS Lambda and Amazon DynamoDB.
- Implemented API Gateway endpoints with CORS configuration.
- Established CI/CD automation using GitHub Actions for frontend and backend deployment.

PROJECTS

No-Code Data Analytics & Visualization

- Performed data analysis and visualization using Python to identify trends and patterns.

Civic Issue Reporting

- Developed a civic issue reporting solution for submitting and tracking community issues.
- Designed the application to improve communication between citizens and local authorities.

EDUCATION

Bachelor of Technology: Artificial Intelligence and Data Science *Expected: September 2027*

Nandha Engineering College, Erode, Tamil Nadu | GPA: 7.9

Relevant Coursework: Machine Learning, Computer Vision, Data Structures, Algorithms

High School: Nandhi Matric. Hr. Sec. School, Erode, Tamil Nadu

CERTIFICATIONS

- AWS Cloud Resume Challenge

ACTIVITIES & WORKSHOPS

- Tableau – Data Visualization
- Tech Fest Event – Tech Trials Runner-Up, PSG Tech
- Python Workshop – IIT Madras
- Active participant on coding platforms, including LeetCode

LEADERSHIP

- Organized UI/UX workshop at Nandha Engineering College

INTERESTS

Artificial Intelligence • Machine Learning • Cloud Computing • Full Stack
