CAREER OBJECTIVE

Aspiring Data Analyst with skills in Python, SQL, Excel, Power BI, and Tableau. Currently exploring Generative AI, Prompt Engineering. Interested in building intelligent applications and solving business problems using data and AI.

EDUCATION

B.E – Computer Science and Design — **2022 - 2026**
Sona College of Technology, Salem — CGPA–9.07

HSC | 12th — **2021 - 2022**
John Britto Matric Hr Sec School, Salem — Percentage - 84.16

SSLC | 10th — **2019 - 2020**
John Britto Matric Hr Sec School, Salem — Percentage - 91.6

TECHNICAL SKILLS

Programming Languages
- Python
- Sql
- VBA

Data Analytics & Visualization:
- Microsoft Excel
- Power BI
- Tableau

AI & Generative AI :
- Generative AI(Basics)
- Prompt Engineering
- Chatgpt
- NLP

Tools & Technologies:
- Git
- GitHub

Database:
MySQL

PROJECTS

Energy Consumption Trend Analysis Dashboard

Technology used: Power BI | Power Query | DAX

Built an interactive dashboard to analyze energy consumption trends using KPI cards, DAX, and Power Query.

Indian Cars Analysis Dashboard

Power BI | Excel

Developed an interactive dashboard to analyze car brands, pricing, mileage, and fuel type.

Tamil Voice-Based Veterinary AI Assistant Agent

Python | NLP | Speech Recognition | Generative AI

Built a Tamil voice-based AI assistant for livestock disease guidance using Python, NLP, and speech recognition. Enabled farmers to access basic veterinary information through voice interactions.

CERTIFICATIONS

- Ai powered Power BI Foundation Certification – Infosys Springboard
- Python Certification and Applied GenAi Certification– Infosys Springboard

INTERNSHIP

AI & Data Analytics Intern – Edunet Foundation (Dec 2024 – Jan 2025)
- Assisted in data analysis and visualization using Python and Power BI.
- Gained exposure to Artificial Intelligence and Generative AI concepts through practical learning activities.
