Ranjini M

Data Analytics Fresher | Python | Power BI | Excel | ML

jiniran21@gmail.com | +91 93446 85709 | LinkedIn | Salem, Tamil Nadu

Summary

Data-driven Computer Science and Engineering graduate (2026) with hands-on experience in data analytics, including data collection, cleaning, analysis, and visualization. Completed internships at Tech Vedhu and Cybernaut Ed Tech, working with real-world datasets to generate actionable insights. Proficient in Excel, Power BI, Tableau, Python, MySQL, and Machine Learning with strong analytical thinking and problem-solving skills.

Technical Skills

Languages	Python, MySQL
Analytics & Viz	Microsoft Excel, Power BI, Tableau, Pandas, NumPy
Machine Learning	Scikit-learn, Classification, Regression, Data Preprocessing, Model Evaluation
Tools	VS Code, Jupyter Notebook, Git
Design	UI/UX Design Fundamentals (Novi Tech Certified)

Work Experience

Data Analytics Intern | **Cybernaut Ed Tech** March 2026 – May 2026 (Off-site)

– Performed data analysis and visualization to support business decision-making.

– Applied data preprocessing and EDA techniques on real-world datasets.

Data Analytics Intern | **Tech Vedhu** Jul 2025 – Aug 2025 (On-site)

– Analyzed and cleaned real-world datasets using Python, Excel, and Power BI.

– Developed dashboards and reports to generate actionable business insights.

Projects

Hybrid Fraud Detection in Credit Card Transactions — *Python, Scikit-learn, Deep Learning*

- Built a hybrid ML and Deep Learning model combining ensemble classifiers and neural networks to detect fraudulent credit card transactions with improved accuracy and reduced false positives.
- Applied data preprocessing, feature scaling, and class imbalance handling techniques to enhance model robustness on real-world financial datasets.

Food Sales Analysis Dashboard — *Power BI, Excel, DAX*

- Developed an interactive Power BI dashboard to analyze food sales, profit margins, customer payment trends, and category-wise performance across multiple regions.
- Designed dynamic slicers and KPI cards to enable drill-down analysis and support data-driven business decisions.

Student Performance Prediction Using ML — *Python, Scikit-learn, Pandas, NumPy*

- Developed a regression model to predict student academic performance using machine learning techniques on historical academic and demographic data.
- Performed exploratory data analysis, feature engineering, and model evaluation using cross-validation to optimize prediction accuracy.

Education

2022 – 2026	B.E. Computer Science and Engineering, **Gnanamani College of Technology**	CGPA: 9/10
2020 – 2022	Higher Secondary Certificate (HSC), **Govt. Girls HSS, Valapady**	82.3%
2019 – 2020	SSLC, **Govt. HSS, Kottavadi**	92.4%

Achievements & Certifications

2026 Data Analytics Certification — Cybernaut | Python for Data Science — NPTEL
2025 UI & UX Design Certification — Novi Tech
2024 Python Programming Certification — Cybernaut

Languages

- **Tamil** – Native
- **English** – Professional Proficiency
