EDUCATION

KSR INSTITUTE FOR ENGINEERING AND TECHNOLOGY
B.Tech Information Technology
2021-2025/CGPA -7.89

BHARATHI MATRICULATION HIGHER SECONDARY SCHOOL
HSC- Computer Science Group
Percentage - 86.33%

BHARATHI MATRICULATION HIGHER SECONDARY SCHOOL

SSLC Percentage-82%

PERSONAL SKILLS

- ProjectManagement
- PublicRelations
- Teamwork
- Leadership

ROLES & RESPONSIBILITIES

- PUBLIC RELATION HEAD - Geeks for Geeks (Led 20+ members)
- WEB DEVELOPMENT MEMBER - GDSC
- ECO CLUB MEMBER - ECO & SWATCH

EXECUTIVE SUMMARY

A proactive B.Tech Information Technology Graduate (KSR Institute, 2021-2025, CGPA 7.89) with a strong foundation in Java, Python and Data Analytics. Developed a Deepfake Detection system using ResNet50 and Facial Landmark Analysis achieving 92% accuracy on a 5000+ image dataset, and an IoT-based Water Level Monitoring System with a real-time data analysis dashboard. Eager to apply technical and analytical skills in a challenging Analyst / Java Developer role.

EXPERIENCE

- **FULL STACK DEVELOPER** APRIL-2023

  Exposys Data Labs

  Built and maintained web applications using both front-end for user interfaces and back-end for server functions. Managed and accessed databases to store and retrieve application information.

- **SALESFORCE DEVELOPER** MAY-2023

  SmartInternz

  Developed applications as a Salesforce Developer at SmartInternz. Collaborated with other developers to create efficient solutions. Gained foundational knowledge in Salesforce platform.

- **INTERNET OF THINGS INTERN** JUN-2023

  NSIC - CHENNAI

  Built IoT-based water level system using Raspberry Pi & Linux, collected & analyzed 500+ real-time sensor data points and created monitoring dashboard

- **WEB DEVELOPMENT INTERN** JUN 2024

  Mayura Software Solutions

  I developed and implemented various web solutions, gaining foundational knowledge in key web development technologies. I also collaborated with other developers to create efficient and effectiveweb applications

TECHNICAL SKILLS

- Programming: Java (Basics, OOPs Concepts), Python, SQL Basics
- Web: HTML, CSS, JavaScript
- Data & Analytics: Python (Data Analysis), MS Excel, Power BI (Basics)

CERTIFICATIONS

HACK WITH GDSC 24/7 HACKATHON

- Certificate in Hackathon from Google Developer Student Club
- Certificate in Google Cloud Computing from GDSC

SKILL COMPETENCY - SKILL INDIA

- Skill Competency Certificate - Skill India

IDEATION AND HACKATHON

- Certificate in Hackathon at SRM College

ACTIVITIES

PAPER PRESENTATIONS

CLOUD COMPUTING

- Presented a technical paper on Cloud Computing at a reputable event held at VIT, demonstrating research and presentation skills.

REINFORCEMENT LEARNING

- Presented a Technical paper on Reinforcement Learning at SRM Institute of Science and Technology, showcasing expertise in advanced AI concepts.

LANGUAGE

- **English**
- **Tamil**

FINAL YEAR PROJECT

ENHANCED DEEPFAKE DETECTION USING RESNET50 AND FACIAL LANDMARK ANALYSIS

Developed an enhanced deepfake detection system by integrating ResNet50 for robust feature extraction and facial landmark analysis for manipulation identification.

WORKSHOP & HACKATHONS

CREATORS OF METAVERSE

- Created simple AR experiences and projects, showing skills in making interactive digital content.
- Gained an understanding of how the Metaverse and virtual realities work.

GYANOTSAV'23

- Developed solutions/projects within a time-bound technical challenge.
- Demonstrating problem-solving and coding abilities.

DEKATHON 2.0

- Certificated in DEKATHON 2.0 an Indo-Malaysian hackathon focused on developing innovative technical solutions for Solid Waste Management.
- Create a practical solution aimed at achieving Sustainable Development Goals

PROJECTS

WEB PAGE DESIGN

- Designed and developed web pages for e-commerce and retail shops

SMART WASTE MANAGEMENT

- Contributed to designing intelligent solutions for solid waste management, Integrating of IoT sensors, data analytics, machine and learning methods to improve efficiency sustainability.

WATER LEVEL MONITORING SYSTEM USING IOT

- Designed and implemented an IoT-based Water Level Monitoring System to provide real-time data on water levels.
