PROFESSIONAL SUMMARY

Front-End Web Developer with hands-on experience building responsive, user-friendly web applications using HTML5, CSS3, and JavaScript (ES6). Completed an internship developing and optimizing production web pages, and currently expanding into React.js. Strong foundation in version control (Git/GitHub), UI design tools, and problem-solving — with a proven record of fast learning and academic excellence.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6)
Frameworks: React.js (In Progress)
Tools & Platforms: Git, GitHub, VS Code,
Other: MS Office, Excel (AI-assisted),

INTERNSHIP EXPERIENCE

Web Development Intern *June 2026 – Oct 2026*
Corizo EduTech, Remote

- Developed responsive websites using HTML5, CSS3, and JavaScript, ensuring smooth cross-browser compatibility
- Built reusable front-end components and interactive user interfaces to improve development efficiency
- Collaborated using Git and GitHub for version control across multiple project iterations
- Improved webpage performance by debugging and optimizing code, reducing page load-time issues

PROJECTS

Personal Portfolio Website *HTML, CSS, JavaScript*

- Designed and developed a modern, responsive personal portfolio website to showcase skills and projects
- Implemented sections for certifications, projects, and contact information with clean, semantic markup

Weather API Website

Built a responsive weather application by integrating the OpenWeather API for real-time data

Displayed live temperature, humidity, and wind speed with a clean, mobile-friendly interface

EDUCATION

Hindusthan College of Science and Commerce, Perundurai, Erode 2024 – 2027
