EDUCATION

B. Tech – Information Technology
Velalar College of Engineering and Technology, Erode-12
CGPA : 7.58 / 10.0
Year of Completion : 2026

Sri Sathya Sai Matric Higher Secondary School, Chithode, Erode
HSE – 61.5% | 2022
SSLC – 69.6% | 2020

SKILLS

- Core Java
- SQL
- Gen AI
- PowerBI

TOOLS

- VS Code
- Eclipse
- Chatgpt
- Claude
- Github
- Canva

LANGUAGES

- Tamil
- English

PROFESSIONAL SUMMARY

Aspiring Software Engineer with a strong foundation in Core Java and a passion for software development. Skilled in problem-solving, analytical thinking, and object-oriented programming. Experienced in conducting Java programming training and mentoring students through coding activities. Eager to contribute to innovative software solutions while continuously learning and growing in a collaborative environment.

PROJECT

Melanoma Skin Cancer Detection Using VGG16 **MAY 2025**

Technologies: Python, Deep Learning, VGG16, Image Processing

- Developed a deep learning-based solution for detecting melanoma skin cancer from skin lesion images using the VGG16 model.
- Applied image processing and deep learning techniques to analyze and classify skin lesion images.

Image-Based Fingerprint Authentication for Secure E-Voting **MAY 2026**

Technologies: Python, Flask, OpenCV, ORB, Computer Vision, HTML, CSS

- Developed an image-based fingerprint authentication system to verify voter identity and prevent duplicate voting in an electronic voting environment.
- Implemented image preprocessing, ORB feature extraction, and fingerprint matching techniques to authenticate voters accurately and enhance the security of the voting process.

AI Expense Categorizer **SEPTEMBER 2026**

Technologies: Python, Flask, Machine Learning, PostgreSQL, HTML, CSS, JavaScript

- Developed an AI-based expense categorization system to automatically classify and organize personal expenses into predefined categories.
- Implemented a Flask-based web application with PostgreSQL database integration to store and manage expense records efficiently.
- Designed an interactive interface for adding expenses, tracking spending, and analyzing categorized financial data.

PROFESSIONAL EXPERIENCE

Java Programming Trainer **SEP - NOV 2025**

Department of Information Technology, Velalar College of Engineering and Technology

- Conducted Java programming training sessions covering fundamental concepts and problem-solving techniques for junior students.
- Organized coding sessions, Kahoot quizzes, and HackerRank challenges to strengthen programming skills.
- Created and assigned daily coding challenges consisting of Easy and Medium level problems.
- Monitored student performance and provided guidance on coding exercises, homework, and programming concepts.
- Received a Certificate of Appreciation for successfully conducting the Java Programming Training Program.

ACHIEVEMENTS & AWARDS

- Won Second Prize in Techno Pitch / Codz Untangle.
- Received a Certificate of Appreciation for conducting a 30-day Java Programming Training Program for junior students.
- Won First Prize in International Throwball match.

CO-CURRICULAR ACTIVITIES:

- Attended a workshop on “Full Stack Web Development” at Velalar College of Engineering and Technology.
- Attended a workshop on “Real-time IoT Project with Raspberry Pi 4” at Kongu Engineering College.
- Attended a 2-day workshop on “Edge AI: Future of Next-Gen AI for Engineering Applications” at Karpagam College of Engineering.
