Objective

Computer Science Engineering student with a strong foundation in programming, software development, data analysis, and machine learning. Seeking an entry-level opportunity as a Software Engineer, Data Scientist, or Data Analyst to apply technical, analytical, and problem-solving skills to develop software solutions, derive meaningful insights from data, and support data-driven decision-making while contributing to organizational growth.

Education

Vivekanandha College Of Technology For Women — 2023-2027
Bachelor of Engineering – Computer Science and Engineering
CGPA : 8.69 (Upto VI semester)

St Isabel's Girls Higher Secondary School, Pattukkottai — 2022-2023
Higher secondary – 85 %

Technical Skills

- **Programming Languages** : C, Python,Java(basics).
- **Core Concepts :** Data Structures & Algorithms, OOP, DBMS.
- **Database:** SQL
- **Web Technologies** : HTML, CSS.
- **Libraries :** Pandas, NumPy, Matplotlib, Scikit-learn.
- **Tools & Platforms :** Power BI, Visual Studio Code, Google Colab, Git & GitHub, Kaggle, Microsoft Word, Microsoft Excel, Microsoft PowerPoint.

Internships

Generative AI - AdroIT Technologies Innovative Solutions Pvt. Ltd. — From 08.10.2025 to 23.10.2025 | Remote
- Worked on generative AI concepts and tools, including prompt design, over a two-week internship.

Data Science with Python - Appin Technology,Coimbatore — From 15.06.2026 to 30.06.2026 | On-Site
- Worked with Python, Pandas, NumPy, and Scikit-learn on data science tasks as part of a structured internship program.

Power BI-Code Alpha — From 20.08.2026 to 20.09.2026 | Remote
- Developing interactive dashboards for Human Resources Analytics and Educational Performance & Resource Allocation using Power BI, Power Query, and DAX.

Projects

- **Stock Market Time Series Data Analysis Using Python**
  Analysed historical stock market data using python and visualized market trends through time series analysis.
- **Blood and Organ Donation Analysis & Prediction using Data Science with Python**
  Developed a python based machine learning system to analyze donor data and predict future donations.
- **Smart Expense Analyzer using Python and Streamlit**
  Developed a python and streamlit application to track expenses,analyze spending patterns ,and generate visual reports.
- **Human Resources Analytics Dashboard**
  Developed an interactive Power BI dashboard to analyze employee performance, recruitment, attrition, satisfaction, and workforce trends.
- **Educational Performance & Resource Allocation Dashboard**
  Developed a Power BI dashboard to analyze student performance, study patterns, attendance, and educational resource.

Certifications

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate.
- Data Science with Python , Generative AI , Power BI Internships.
- IBM Skills Build – Artificial Intelligence Fundamentals,Craft Pecise Prompts For AI Models.
- NPTEL – Internet of Things (Silver Elite).
- Infosys Springboard – Python Fundamentals.
- Web Designing and UI/UX Design.

Languages

- Tamil,English
